Catalogue 2010

EDUARD PLASTIC KITS EDITIONS

ProfiPACK

ProfiPACK is our basic, high standard plastic kit edition. Each ProfiPACK kit contains a **complete plastic model kit** with additional items for various subvariants, **photoetched sets**, **Eduard masks** and a **large decal sheet** covering four to six markings options with stencils. The ProfiPACK kits are produced in 1/48, 1/72, 1/144 and 1/32 scales. This line is easily recognizable with its orange accented box, and with more recent releases, the addition of the ProfiPACK logo. The older ProfiPACK kits had a black box and also carried the ProfiPACK name. ProfiPACK kits are designed for all moderately experienced modelers.

In this catalog, these kits are identified with this label: **PROFI PACK**

eduard WEEKEND

The Weekend Edition offers a **simpler and less expensive** alternative to the standard ProfiPACK kits. They provide a top quality injection molded kit at an incredibly competitive price. The Weekend edition kits contain all parts in injection molded plastic, and build one specific variant. They contain no additional accessories, and have a single marking option for which the boxtop serves as a guide. These kits are designed for those modelers that don't require or want all of the 'bells and whistles' of the ProfiPACK kits, and are ideal for beginners and quick turnaround modelers. These kits still can be upgraded with separately available accessory sets as, and if, desired.

In this catalog, these kits are identified with this label: **Weekend**

eduard LIMITED EDITION

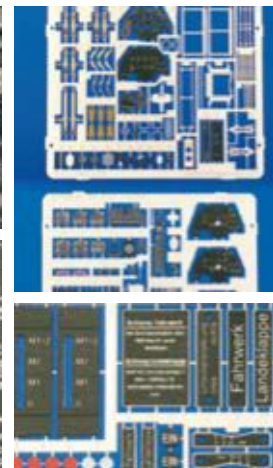

The Limited Edition kits offer plastic from Eduard runs, as well as those of other manufacturer's. The plastic is then brought up to the ProfiPACK standard with the inclusion of PE sets, masks and large decal sheets, and are **further complemented with other accessories** such as resin details (exhausts, engines, wheels etc.), figures and/or supplementary publications. Many of the Limited Edition kits are offered in a Dual Combo packing, containing two complete kits. They are produced with the serious modeler and collector in mind. Most of these have historically sold out in a matter of weeks.

In this catalog, these kits are identified with this label: **LIMITED**

ROYAL CLASS eduard

The name here is pretty self explanatory. The distinctive black box typifies the **top quality nature of the kits**, and contain two complete kits (though three have also been included in some subject matters). The decals offer 10 + marking options with stencils, a very extensive assortment of PE and masks, and an extra large instruction booklet. **Special bonuses** are included in the form of 1:1 replicas of medals and insignia, large scale instrument panels, supplementary publications, resin parts, or pieces of the actual aircraft relevant to the subject. These kits, although not cheap, are **unique** in the hobby and target very discriminating modelers, collectors and aviation enthusiasts.

Photo Etched Sets & Eduard Masks

Eduard's photo etched sets are carefully developed by our designers to detail plastic model kits of aircraft, armoured fighting vehicles and ships. These sets contain parts for adding details that are missing or overscale and/or replacing parts in a kit. The process for making these sets is not very complicated and involves a pattern being applied to a sheet of brass which is then etched with an acid that eats away the surface that is not needed. The thickness of the brass plate is 0.16 mm or for some special sets 0.2 mm. The parts are etched in two levels to give some depth and detail. The parts are then given a thin nickel coating to stop oxidation and to help glues and paint to stick better. **Currently Eduard offers more than 3500 PE sets and some 780 masks.**

48622 + 49442 F-22 exterior / interior 1/48 (for Academy kit)

36087 ASLAV-25 RV 1/35 (for Trumpeter kit)

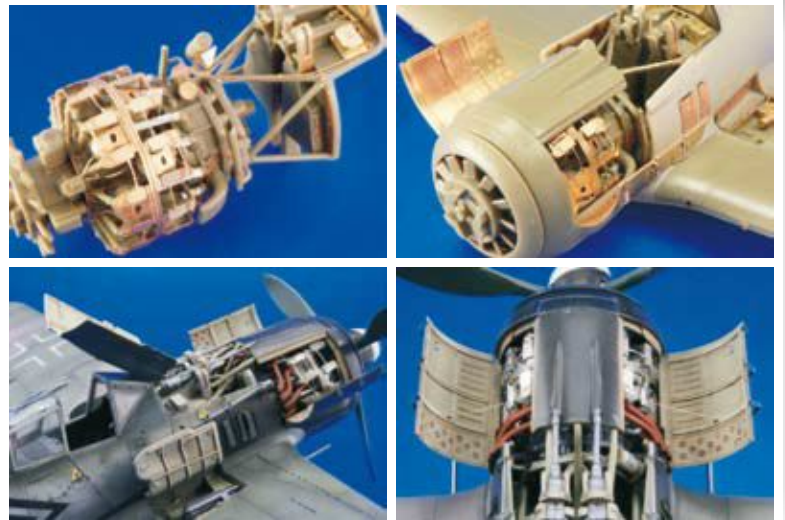

53040 Fletcher 1942 1/144 (for Revell kit)

36057 PaK.97/38 75mm
AT 1/35 (for Italeri kit)

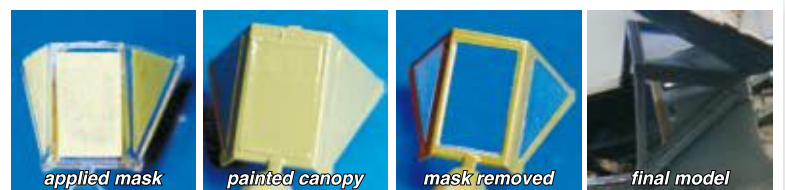

32645 DH-2 1/32
(for Roden kit)

Example of final effect using photo etched accessories on Eduard's Fw 190A-8 & A-8/R2 (R0004, 8173, 8175, PE set - 48556)

Using Eduard Mask for accurate painting of canopy frames, wheels, etc. (sample: Fw 190A, Cat.No. R0004, 8173, 8175)

49006 Seatbelts RAF WWII 1/48

Smaller specialty sets that include details that are non-type specific, such as seatbelts, instrument bezels, placards, etc.

Aircraft exterior (1/72, 1/48, 1/32)

48519 Helldiver landing flaps 1/48

32180 P-39D landing flaps 1/32

Fine detailed supplements for exterior features such as landing flaps, gun bays, landing gears, bomb bays, engines, etc.

32140 Avenger bomb bay 1/32

32131 Avenger engine 1/32

Aircraft exterior (1/72, 1/48, 1/32)

72485 F-22 Raptor exterior 1/72

32218 P-51D gun bay 1/32

Various Aircraft accessories (1/72, 1/48, 1/32, 1/24)

49009 Remove Before Flight 1/48

48567 Bf 110 workshop ladder 1/48

For finishing of a close-to-perfect-as-possible kit, Eduard provides details such as ammunition belts, "remove before flight" tags, ladders, etc. in separate sets for general use.

Armoured Fighting Vehicle exteriors (1/48, 1/35)

36046 Flakpanzer 38 exterior 1/35

36068 M-1128 MGS 1/35

PE accessories for AFVs are developed to cover all the detailing work for AFV modellers that are better covered in brass than in plastic.

Armoured Fighting Vehicles interior (1/48, 1/35)

36053 M-7 Priest interior 1/35

36035 M-3 Grant interior 1/35

Zimmerit surface plates for AFV (1/72, 1/35)

35705 Zimmerit Jagdtiger fender 1/35

35521 Zimmerit Tiger I Mid. 1/35

Some details are very difficult to reproduce in plastic, and Eduard produces brass alternatives that include Zimmerit.

AFV and Dioramas accessories (1/48, 1/35)

28009 Tool Box German WWII 1/48

Various accessories such as camouflage netting, vegetation, boxes, radio equipment, tools, uniform accessories, etc. for detailing your dioramas.

Ships (1/700, 1/450, 1/400, 1/350, 1/144, 1/72, 1/35)

53035-6 Bismarck 1/350

Despite their small scale, these PE sets for ships provide the most realistic avenue for representing the likes of railings, turrets, armor, floors, etc.

Navy figures (1/700, 1/350)

53034 Pacific V-day 2 Sept. 1945 1/350

Painting some 200 figures in 1/350 that measure 4.8 mm is a nightmare for modellers. Eduard has the answer - colored and in 3D!

Introducing the **BIG ED** concept

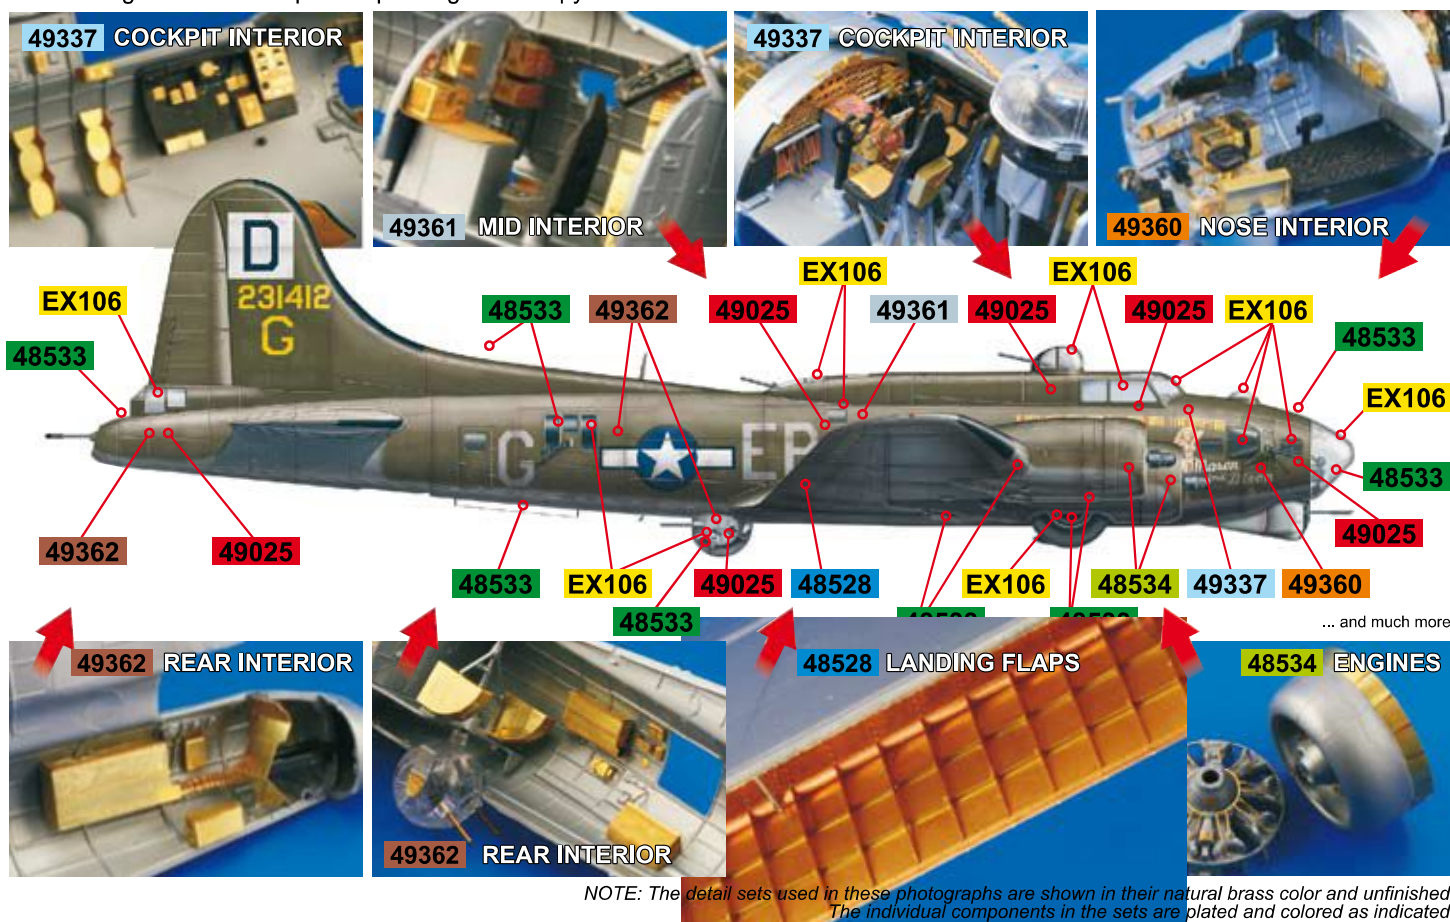

Eduard's BIG ED is a special edition release geared to a specific subject matter. It contains all of the PE and Mask sub-sets available separately, but at a significantly reduced price, allowing you to gain the greatest amount of detail at the lowest possible price.

Why "BIG ED"?

- Contains all you need to superdetail your project in one package.
- These single-package collections save you around 30% off the cost of the individual component sets
- High, consistent level of standard across the board

Airplane BIG ED set example:

An example of what a 'Big Ed' set looks like, using Set # BIG4873 B-17G Flying Fortress as an example, the contents include a complete interior with color photoetched (individual set 49360), color cockpit (49337), color seatbelts (49025), color mid-fuselage section (49361), color rear section (49362), exterior details (48533), landing flaps (48528), and Eduard masks (EX106) for masking off assistance prior to painting the canopy and turrets.

TRY OUT YOUR MATH:

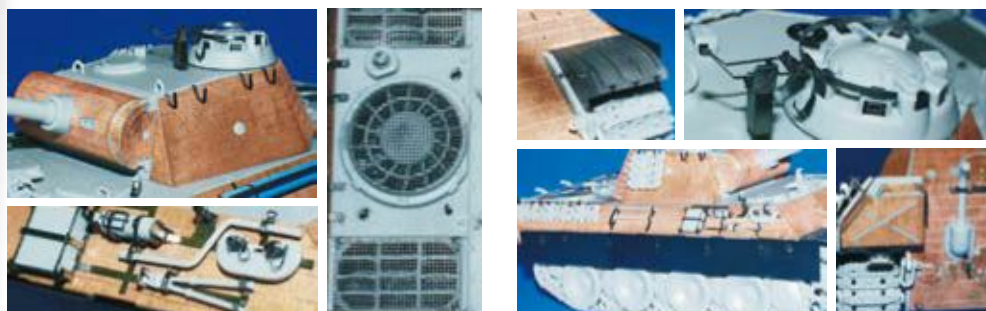

#4873 B-17G

Best ~~Brass~~ Resin Around

Eduard Brassin is a brand new way how to sense scaled reality.

Thanks to revolutionary 3D technologies, we are able to scale down large amount of details to bring you high quality resin parts.

Sophisticated symbiosis of high-detail resins and precisely etched metal parts takes your modeling to another level, opening you new dimension of realistic details, allowing your model to stand out over others.
