NEW

PK-507 Aerospatiale Puma Moulded in 3 colours
Modern Anglo-French gas turbine helicopter used in many parts of the World for civilian and military use. The principal characteristic of the Puma lies in its adoption of "fail safe" rotors to eliminate excessive parts fatigue. The kit includes moveable parts, intricate interior detail and 3 optional versions.

The first of a new generation of European trucks in the "MATCHBOX" - AMT range.

PK-6130 Volvo F10/F12

The Volvo is one of the most popular trucks all over the World with a reputation for proven reliability.

The kit offers the two versions F10/F12 with a wealth of metallised parts and accessories - the globemaster roof, cowcatcher, horns, roof rack and ladders.

PK-704 BMW R100RS Moulded in 3 colours

The BMW is a big 1000cc horizontally opposed shaft driven motorcycle with fully aerodynamic fairings and racing seat. The kit depicts all these features with a lifting seat to display the detailed frame, including real rubber tyres, moveable parts, and an operating stand.

"MATCHBOX" proudly introduce a new way of assembling kits. These Snapfit kits are easy to assemble and require no glue. All the models are moulded to the same high standards of quality, authenticity and detail as the glue construction kits, and solves the

PK-2510 Jeep® CJ7 Renegade® ● Moulded in 2 colours.

The most famous name in off-road running, the rugged Jeep with its 4 x 4 drive can traverse any wild terrain.
® The word Jeep is a registered trademark of Jeep Corporation and is used with its permission.

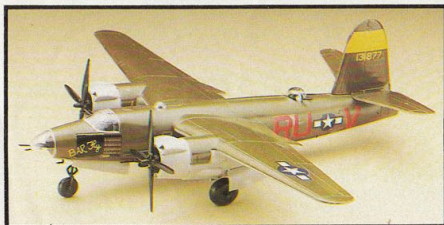

PK-2301 Mazda RX7 ● Moulded in 2 colours

This is one of the most sort after sports cars and is regarded by many to be a classic of the future; featuring the wankel engine.

PK-2302 Ford Escort ● Moulded in 2 colours

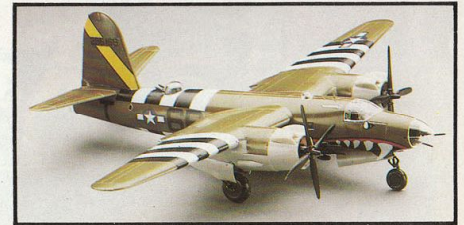

This is the brand new development by Ford to replace the old Escort, featuring the new aerodynamic body design, front wheel drive and a revolutionary new engine.

PRE-COLOURED MOULDINGS

"MATCHBOX" kits and Snapfit car & truck kits are moulded in two or more colours so that the younger modeller can build finished model kits without having to paint them.

THE MODELS YOU MAKE WILL LOOK EXACTLY LIKE THESE WITHOUT PAINTING

problem for those modellers who do not like using glue. The models have working features such as opening bonnets, seats, snap-on wheels with vinyl tyres and new Rub-on dry transfer decals.
