"Paul® Defender" (Gentlemen's Tactical Folder)

Paul® Defender, checkered G-10 handles, LM23780 MSRP: \$199.99

Paul® Defender, checkered cocobolo handles, LM23750 MSRP: \$219.99

Pocket clip can be easily reversed for left hand carry!

Key Features

- Paul® "Axiel" locking system locks the blade open and closed
- 154 CM premium high-carbon stainless steel blade
- One-handed opening and closing of the blade
- Precise fit, finish and function
- Pocket clip is reversible for left hand carry
- Select checkered cocobolo wood or G-10 handles
- Proudly made in the USA

The new Paul® Defender is quick to open & close, tough and great looking. The Defender is a true "Gentlemen's Tactical Knife" with precision fit and finish. The patented Paul® Axiel-lock makes the Defender fast to open and close with one hand. Every Defender can also be easily adjusted for right or left hand carry by switching the handles and pocket clip from side to side! The extreme strength of the patented Axiel locking mechanism and the safety of its locked-open and locked-closed (safe in the pocket) blade make this lock ideal for a tactical knife. The blade is 3.9 inches long built from premium 154CM high-carbon stainless steel that is tough and holds its cutting edge extremely well. The Defender's frame has thumb-notching just behind the blade on the top of the handle combined with its taper forward design to provide a positive grip. The handles are AAA Grade natural cocobolo hardwood or G-10 and both are checkered to provide a secure grip to complement their great looks. The handles are held in place with precision screws and escutcheon cups for a classy and high-tech appearance that is sure to please any knife enthusiast. The Paul® Defender has a limited lifetime warranty and is packaged in a nice Lone Wolf gift box.

Specifications:

Blade Length: 3.9 in.
 Handles: Checkered Cocobolo wood or G-10

 Liners/Frame: Stainless Steel
 Weight: 4.1 oz.

Pocket Clip: Stainless steel, reversible for left hand carry
 Blade Material: 154CM high-carbon Stainless Steel
 Proudly made in the USA

“Paul® Prankster” (Gentlemen’s Utility Folder)

Prankster, G-10 handle, LM22820 MSRP: \$189.99

Prankster, cocobolo handle, LM22750 MSRP: \$199.99

Convenient Pocket Clip

Key Features

- Patented Paul® locking system locks the blade in the open and closed positions
- One-handed opening and closing of the blade
- Pocket Clip provides convenient tip-down carry and quick access
- Proudly made in the USA

The Prankster has a 3.2” blade that is ready to tackle any utility cutting task, yet compact enough for comfortable everyday use. A pocket clip allows tip down carry and quick convenient access. At only 3.3 ounces the Prankster is light in your pocket and tough on performance. The patented Paul® locking system locks the blade in both the open and closed positions, making it extremely safe, strong and easy to use. Paul® knives are famous for their precise fit and function and have been a favorite of knife enthusiasts throughout the world for many years. We believe the Prankster has the right blend of strength and class to become the best gentlemen’s utility knife ever built. The exciting Paul® Prankster has a limited lifetime warranty and is proudly made in the USA.

Diablo (Double-action automatic)

Diablo, double-action automatic, nylon handle, LD23150 MSRP: \$279.99

Diablo, double-action automatic, Ti-blade coating, nylon handle, LD23154 MSRP: \$299.99

Diablo, double-action automatic, Ti-blade coating, marble cocobolo handle, LD23152 MSRP: \$319.99

Diablo, double-action automatic, Ti-blade coating, Green/Black Micarta handle, LD23153 MSRP: \$319.99

Key Features

- The Diablo can be opened both manually with one hand using the ambidextrous thumb stud, or automatically using the “hidden” scale release firing mechanism.
- The 3.3 in. blade is CPM-S30V premium stainless steel with black Ti or bead blast finish.
- The handle choices are comfort contoured nylon, marble cocobolo wood, Green/Black layered Micarta.
- Convenient tip-down carry stainless steel pocket clip for quick access.

The Diablo double-action automatic was designed to be tough, sleek and comfortable in the hand or pocket. The automatic firing mechanism is easily activated by sliding the left handle scale (the side opposite the pocket clip) to the right towards the top of the knife. The Diablo can also be opened manually, one-handed, using the ambidextrous thumb stud. The frame and internal components are heat treated stainless steel making them strong and durable. The blade steel is CPM-S30V for great edge retention and toughness. The blade is offered with a black titanium coating or a bead blast finish. The handle options are comfort contoured nylon, marble cocobolo or Green/Black layered Micarta. A stainless steel pocket clip provides convenient tip-down carry for quick access. The Diablo is rugged, lightning fast and comfortable to carry. The Diablo is proudly built in the USA and has a limited lifetime warranty.

Specifications:

Blade Length: 3.3 in.
Overall Length: 7.6 in.
Weight: 4.1 oz.
Blade Material: CPM-S30V Stainless

Handle: Nylon, marble cocobolo or Micarta
Liner/frame: Stainless steel
Pocket Clip: Stainless steel
Proudly Made in the USA

“Double-Duty” (Double action automatics)

Double-Duty, double-action automatic, plain edge,
Checkered G-10 handle, LC18100 MSRP: \$269.99

Double-Duty, double-action automatic, plain edge,
Cocobolo wood handle, LC18000
MSRP: \$299.99

Key Features

- Blade opens manually with one-hand or in the automatic mode
- Hidden automatic scale-release mechanism makes it a “stealth” automatic
- Premium CPM-S30V blade steel is tough and holds its edge extremely well
- Pocket clip provides convenient tip-down carry and quick access.
- Proudly made in the USA

The Double-Duty automatic is a double-action automatic that can function as both a one-handed opening locking liner knife or a lightning fast automatic. The automatic firing mechanism is hidden under the handle and is activated by sliding the left scale (side opposite the pocket clip) to the right towards the top of the knife. With no buttons on the handle to activate the automatic blade release it is not easy to tell that the Double-Duty is an automatic. This makes the knife convenient to carry and use anywhere. You need not disclose that the knife is an automatic unless you choose to. The 3.0 inch blade is built from CPM-S30V steel for great edge retention and durability. The liners, pocket clip and internal components are all constructed using heat treated stainless steel. The Double Duty is a rugged, fast and compact knife for everyday carry. Proudly built in the USA it has a limited lifetime warranty.

Specifications:

Blade Length: 3.0 in.
Overall Length: 7.0 in.

Weight: 4.8 oz.

Blade Material: CPM-S30V Stainless

Pocket Clip: Stainless steel

Handle: Black, checkered G-10 or

Cocobolo wood

Liner/frame: Stainless steel

Proudly made in the USA

“Lobo” (Double-action automatics)

Lobo, double-action automatic, plain edge, Checkered G-10 handle, LC22605-PLN MSRP: \$289.99

Lobo, double-action automatic, partial serration, Checkered G-10 handle, LC22600-SER MSRP: \$289.99

Lobo, double-action automatic, plain edge, Cocobolo wood handle, LC22505-PLN MSRP: \$319.99

Lobo, double-action automatic, partial serration, Cocobolo Wood handle, LC22500-SER MSRP: \$319.99

Key Features

- Blade opens both manually with one-hand or in the automatic mode
- Hidden automatic scale release makes this knife a “stealth” auto
- Premium CPM-S30V blade steel is tough and holds its edge extremely well
- Pocket Clip allows convenient tip-down carry and quick access
- Proudly made in the USA.

The Lobo’s attractive 3.5 inch, re-curve blade can easily be opened one handed using the thumb hole or rapidly fired in the automatic mode with a slight push of the scale. Simply slide the left handle scale to the right towards the top of the knife, launching the blade. The CPM-S30V steel blade is tough enough to handle any cutting task you may encounter. The Lobo is sleek, rugged and lightning fast to open. It is proudly built in the USA and has a limited lifetime warranty.

Specifications:

Blade Length: 3.5 in.
Overall Length: 7.6 in.
Weight: 5.5 oz.
Blade Material: CPM-S30V Stainless

Liner/frame: Stainless steel
Handle: Black checkered G-10 or Cocobolo wood
Pocket Clip: Stainless steel
Proudly made in the USA

“D2” (Double-action automatics)

D2, double-action automatic, plain edge, nylon/Kraton® handle, LD14920-PLN MSRP: \$309.99

D2, double-action automatic, partial serration, nylon/Kraton® handle, LD14900-SER MSRP: \$309.99

Key Features

- Blade opens both manually with one-hand or in the automatic mode
- Blade steel is premium CPM-S30V for toughness and great edge retention
- Handle is fiberglass filled nylon with a textured Kraton® outer molding for superior grip
- Pocket clip features convenient tip-down carry and quick access.
- Proudly made in the USA.

The Harsey D2 is a rugged double-action automatic knife that was designed with law enforcement and military personnel in mind. It features a hidden automatic blade-release mechanism that is located beneath the Kraton® handle to keep the mechanism both hidden from view and sealed from the elements. The automatic blade release button is located next to the blade pivot on the left handle side, under the soft cover material. When you press down in this area you will find the recessed blade firing button and pushing here will activate the automatic blade firing mechanism. After you practice finding this spot several times it will come naturally to you. Press with aggressive force to fire the automatic function as the D2 was built to military specifications on blade firing force.

With no visible button exposed on the handle to fire the blade it is not easy for the untrained eye to tell the D2 is an automatic knife. This allows you to keep the automatic feature of the knife a secret if you wish. The D2 has a stainless steel frame and heavy duty CPM-S30V blade for outstanding performance under all conditions. The Kraton® handles are molded and textured to provide a comfortable non-slip grip. This innovative design was built to military specifications so it is rugged, comfortable and reliable. You will not find a tougher or better looking double-action automatic knife anywhere. The D2 is proudly built in the USA and has a limited lifetime warranty.

Specifications:

Blade Length: 3.9 in.
Overall Length: 8.8 in.
Weight: 5.8 oz.
Blade Material: CPM-S30V Stainless

Handle: Black textured nylon/Kraton®
Liner/frame: Stainless steel
Pocket Clip: Stainless steel
Proudly made in the USA

"M.A.C.K." Military-Automatic-Combat-Knife

Automatic "Out-The-Front" knife!

M.A.C.K., black-Ti coated handle, plain edge, black-Ti coated blade. FD24070-PLN MSRP \$479.99

M.A.C.K., black-Ti coated handle, partial serration, black-Ti coated blade. FD24080-SER MSRP \$479.99

M.A.C.K., textured stainless handle, plain edge, black-Ti coated blade. FD24090-PLN MSRP \$469.99

M.A.C.K., textured stainless handle, partial serration, black-Ti coated blade. FD24100-SER MSRP \$469.99

Key Features

- Lightning-Fast automatic out-the-front opening & closing!
- Blade is 154-CM high-carbon stainless steel and black-Ti coated
- Handle/frame is stainless steel, textured, tough and comfortable in the hand
- Pocket clip is stainless steel, black-Ti coated and positions the knife deep in your pocket
- Proudly made in the USA.

The new M.A.C.K. (Military-Automatic-Combat-Knife) out-the-front automatic knife from Lone Wolf Knives is extremely fast to open and close! With balanced spring force the M.A.C.K. opens and closes with equal speed and features a dual point internal blade locking system for safety and ease of operation. The M.A.C.K.'s stainless steel handle is much more rugged than aluminum handled knives because it's precision machined blade-track keeps the blade in proper alignment and allows it to glide smoothly long after the aluminum handles have fatigued, broken or simply worn out. This precision machined and heat-treated track provides a solid channel for the high quality 154CM blade to slide smoothly in. The handle is built from heat treated stainless steel and its shape, surface grooves and textured provide a secure grip. The handle finish options are black titanium nitride or natural stainless both being nicely textured for grip and appearance. The stainless steel pocket clip is black Ti-coated, is reversible and positions the knife deep in the pocket for concealment while maintaining easy access. You cannot find a finer out-the-front automatic than the new M.A.C.K. from Lone Wolf Knives. The M.A.C.K. is fast to open & close, convenient to carry, tough and great looking.

Specifications:

Blade Length: 3.25 in.

Length Closed: 4.3 in.

Paul® Presto with Woolly Mammoth Tooth handles. Item Number: LM23900 MSRP: \$549.99

This new limited edition Paul® Presto features handles constructed of "Woolly Mammoth Tooth". We carefully shape and polish this material to a high luster bringing out its natural beauty. It is fascinating to imagine that a Woolly Mammoth living in Siberia nearly 10,000 years ago provided the handle material for these unique knives.

The Paul® Presto has a 2.4 inch blade built from 19C27 high carbon stainless steel. The Presto is lightweight at 1.9 ounces and the patented Paul® lock system locks the blade both open and closed making it extremely safe, strong and easy to use. The Presto is proudly made in the USA!

Paul® Executive "Red Dawn" folder! Item Number: LM24030 MSRP: \$339.99

The handles on the Paul® Executive "Red Dawn" are constructed from red picture rock, jet stone and highlighted with mother of pearl accent strips. These beautiful materials are separated with sterling silver strips using the channel inlay process. We custom fit these materials to each knife and polish them to a high luster.

The Paul® Executive gentlemen's knife is compact, rugged and great looking. Its classic drop-point blade is 2.5 inches long providing plenty of cutting surface to handle any cutting chore. The patented Paul® "Axiel" locking mechanism locks the blade in both the open and closed positions for safety. The sleek handle shape provides a secure and comfortable grip. The Paul® Executive is constructed entirely of stainless steel for easy maintenance and reliable service. You will be very proud to own the Paul® Executive "Red Dawn" folder!

Paul Executive, Yellowhorse "Lawman" Item Number: LM23760 MSRP: \$499.99

The Limited Edition "Lawman" Paul® Executive knife features custom channel inlay's and blade file-work by David Yellowhorse. The handle has black jet stone, turquoise, bloody basin jasper and fire opal inlaid between nickel silver strips. The silver inlay depicts a lawman of the old west and the blade is hand filed by David before we coat it with black Titanium Nitride. The Paul® Executive knife has a 2.5 inch blade and features the Paul® "Axiel" locking mechanism that locks the blade in both the open and closed positions for safety. The sleek handle shape provides a secure and comfortable grip. The Paul® Executive is constructed entirely of stainless steel for easy maintenance and reliable service. It's precise fit and finish assures that it operates smoothly, safely and looks great!
