

MID-YEAR BYRD CATALOG SUPPLEMENT 2006

BY03GP G-10 CARA CARA
BY04GP G-10 MEADOWLARK

In the world of pocketknives G-10 has super-hero status as a handle material. It's a woven epoxy filled laminate that's grippy in the hand, is nearly indestructible, repels moisture and chemicals and won't retain heat or cold. G-10 handled Meadowlarks and Cara Caras are here with jimping, tip-up/tip-down right hand carry, full-length internal steel liners and a subtle touch of filework on the spine.

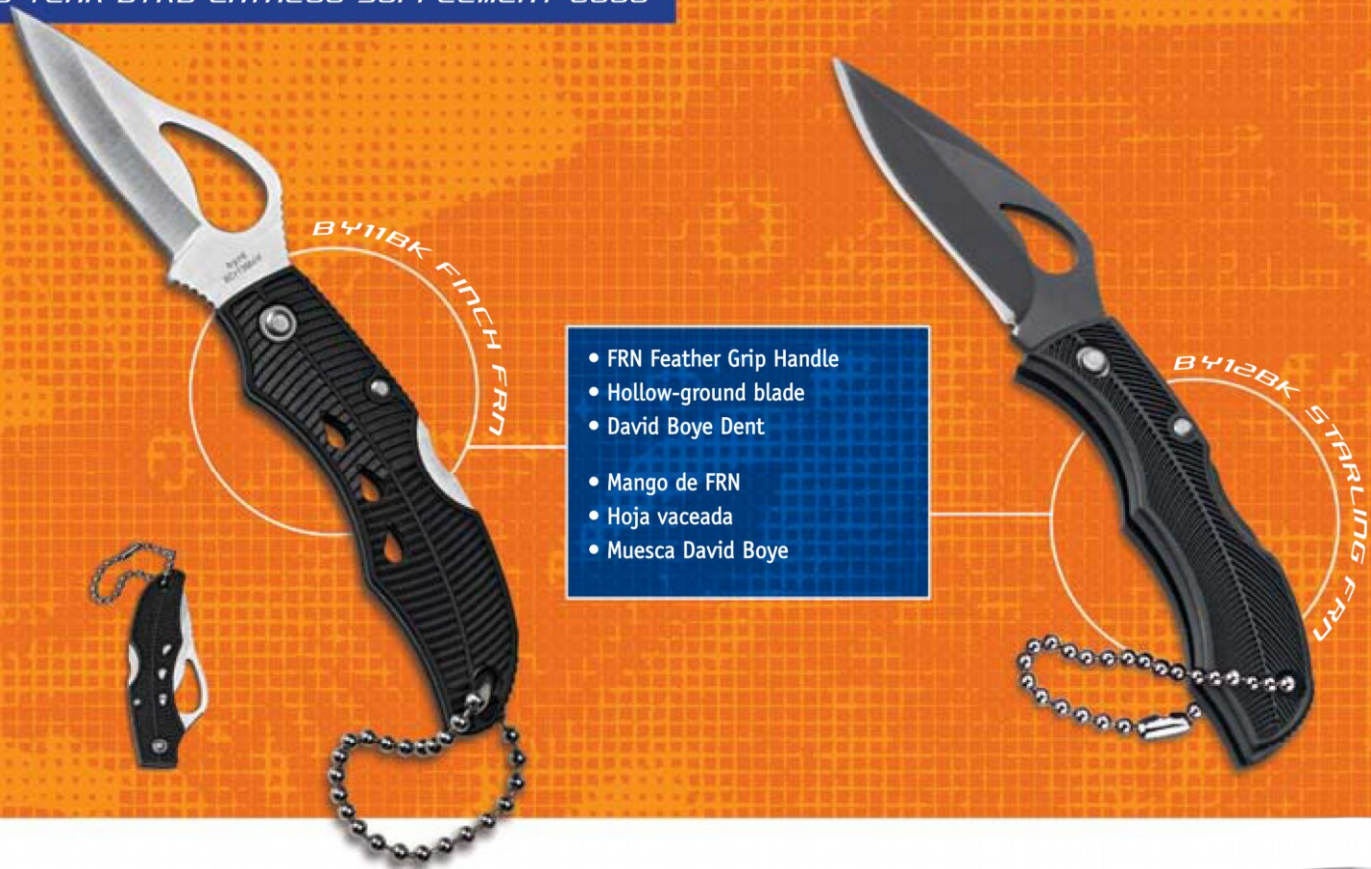

El G-10 está considerado un super héroe como material para mango de navajas. Formado por láminas rellenas de epoxy, es fácil de asir, prácticamente indestructible, repele la humedad o los productos químicos y no retiene frío ni calor. Las navajas Meadowlark y Cara Cara con mango G-10 han llegado con ranuras, transporte punta arriba/punta abajo para diestros, láminas interiores completas en acero y un suave tacto ranurado en el lomo.

- Hollow-ground drop point blade
- Right-hand, tip-up/down steel clip
- Adjustable pivot pin
- Hoja vaceada y punta caída
- Diestro. Transporte punta arriba/punta abajo
- Resistencia a la apertura ajustable

MID-YEAR BYRD CATALOG SUPPLEMENT 2006

BY11BK FINCH FRN

The smallest FRN byrd folder, the Finch brings elements together to elevate ergonomics and create purchase in the hand. Jimping (texturing) at the spine, finger choil and on the bottom of the handle let you wrap your hand around the folder for remarkable control and precision. A ball chain threaded through the lanyard hole (included) can be used as a keychain attached to a purse, pocket or zipper pull.

La navaja byrd más pequeña con mango FRN. La navaja Finch combina elementos para aumentar la ergonomía. El ranurado en el lomo, la bigotera y el pomo aportan un control y precisión destacables al asir la navaja. Una cadenita (incluida) permite su uso como llavero para colgar de un bolso, bolsillo o cremallera.

BY12BK STARLING FRN

The byrd line's smallest lightweight folder is the Starling. It is engineered to yield maximum cutting performance with a blade under two-inches. A ball chain threaded through the lanyard hole (included) lets you use the Starling as a keychain or attach it to a purse, pocket or zipper pull.

La navaja más pequeña y ligera de la serie byrd es la Starling. Diseñada para entregar el máximo rendimiento de corte con una hoja menor de 2 pulgadas. It is engineered to yield maximum cutting performance with a blade under two-inches. Una cadenita (incluida) permite su uso como llavero o colgar la Starling de un bolso o cremallera.
