MOONLANDER WHITE LIGHTWEIGHTS

Tom Sachs, an artist living in New York with works featured around the world, is also a Spyderco fan. He requested a white Delica in a CombinationEdge for his creation of the "Space Program" a full scale reconstruction of man's first walk on the moon with Tom's twist. It debuted at the Gagosian Gallery in Beverly Hills, California in September of 2007.

Inspired by Tom's enthusiasm for white Spydercos, we've created a collection of some of Spyderco's classic designs in White. The White Delica, Endura, Dragonfly, and Ladybug are available for a short time and in limited quantities.

For more information on Tom Sachs' work and the Gagosian Gallery, please contact the gallery at 310-271-9400 or visit their website at www.gagosian.com

NATURAL BLACK PEARL
COLOR VARIES AND IS UNIQUE
TO EACH INDIVIDUAL KNIFE

C36CF MILITARY CARBON FIBER S90V

Our classic US made Military Model with a peel ply carbon fiber handle and Crucible Steel CPM S90V exotic alloy blade.

ORANGE LADYBUG LIGHTWEIGHT

Orange handles make knives easy to find, hard to lose and add playful color to the world of black and tactical. Standard Ladybug with bright orange lightweight handle for purse, pocket or keychain.

C81FG PARA MILITARY FOILAGE GREEN

Spyderco's military patterned knives were breakout folders starting the public's obsession with high performance military folders. Our Para Military Model with a foliage green G-10 handle with a powdered metallurgy steel technology, CPM-D2 blade.

C112P&SBP MICRO DYAD BLACK PEARL

Spyderco releases a folder with dual blades in the same handle. Luminous black pearl handle, with a PlainEdge Clip-point and SpyderEdge Sheepfoot blade that open and lock independently. Clipless. Superb fit and finish.
