

2009 Product Line

Why SOG?

Since 1986, we've been creating the strongest multi-tools on the market and the knives that make your buddies drool. We don't settle for the ordinary. We never have, and we never will.

Our split bullet logo symbolizes our determination to produce quality products that stand up to extreme conditions. It requires vision and tenacity to dream beyond the expected in order to create the exceptional. It takes a team that is dedicated and disciplined to hold exacting tolerances that can make the difference between magic and mediocrity... and all at affordable prices! Actually, SOG products are so good... you'd expect to pay more.

This high-speed composite photograph was taken at a millionth of a second and captures a .45 caliber bullet after being fired from point blank range. The blade shows up white where lead has been deposited after 17 shots. This is a testament to the durability of SOG edges. Nobody should ever try to split a bullet with a knife edge, but isn't it nice to know that you could!

SOG's manufacturing plant in Lynnwood, Washington.

"I'd like to thank all of our customers through out the world who continue to support SOG products every day. I never would have envisioned that from our humble beginnings in 1986... how influential our designs have become. I am very excited this year to offer an incredible lineup of industry 'firsts'. As always, innovative solutions at affordable prices will continue to be our mission."

Spencer Frazer

SOG President & Chief Designer

Multi-tools

SOG owners don't just love their SOGs, they depend on them every day for the expected and the unexpected. SOG makes the only multi-tools in the world with one-handed flip opening and gear-driven Compound Leverage™ for double the plier power. From our miniatures to our industrial models, SOG has a multi-tool for every vocation.

PowerAssist

Fixed Blades

SOG is the world's leader of specialized fixed blade knives. All of SOG's fixed blades offer superior sharpness, styling, feel and balance. This is why the US Navy SEALs and other elite forces choose to carry SOG fixed blades on fronts around the world. We also realize that you require knives to fit your everyday use. That's why we continue to develop new products and configurations to keep you prepared for anything.

SEAL Pup Elite

Folding Knives

You want cool? Okay, how about award-winning folding knives that combine experimental design with precision engineering? SOG takes risks to bring you technological advancements such as the Arc-Lock™ advanced blade lock mechanism, and a whole new speed in lightning-quick blade access with patented SOG Assisted Technology (S.A.T.™).

SOG Trident

"I discovered SOG knives during my career in the Marine Corps. After continuous need and practical use of the Para Tool in an extreme situation, I was thoroughly convinced that SOG would stand up to any situation. Every SOG product I have ever owned has outlasted and outperformed all other edged weapons or tools I have tried. Now, in my current job, and as law enforcement officer, my colleagues' continuously reaffirm SOG as an elite choice. Whether it's in the field, on the street or even at play, SOG weapons stand out and hold up to any occasion. SOG helps create the tools we want and need."

Gary Drake is one of the nation's most active defensive tactics and firearms instructors. He is a former U.S. MARINE with over 30 years of Martial Arts experience. "Drake" carries 16 years in law enforcement, including SWAT, Tactical Tracking, and High Security Transport/Court Detail while in Corrections. Drake worked as the Defensive Tactics Coordinator for a state Police Academy and continuously trains and instructs defensive tactics, fellow instructors, SWAT, ERT, and SERT teams across the country. In addition, Drake earned the position as a lead instructor for ARRESTLING. He currently works as a military contractor, as well as a reserve police officer.

Gary Drake, Defensive Tactics Trainer

"I carried the SOG PowerLock into the Australian bush with me while training troops for The Great Raid, and it proved to be the only tool I needed for bush-craft, equipment and weapons repair. When we got to shooting, I wasn't surprised to notice quite a number of the working Australian movie crew also carried SOG multi-tools. This is the best of a long line."

"I've used SOG knives and tools for years... and I'd expect few people give them the workout I do in field work for movies and TV. My field gear always includes a few SOG blades and they've never failed me. The range, quality and design are all top-notch. I especially appreciate the thought and practical user aspects that go into SOG knives. They fit the hand and fill the bill."

Captain Dale Dye is not only a highly-decorated soldier, technician and military historian with combat experience around the world, he provides technical advice to the entertainment industry worldwide.

Dale Dye has set up boot camps for some of Hollywood's biggest stars. His expertise can be seen in such great motion pictures as Platoon, Saving Private Ryan, Born on the 4th of July, and The Great Raid.

His unique approach to film-making provides a special touch of veracity, flair and color to all productions including themes involving espionage & counter-espionage, terrorist & counter-terrorist operations and military special operations involving all historical periods and branches of foreign and domestic military services.

Captain Dale Dye, U.S. Marine Corps Ret.

SOG Assisted Technology (S.A.T.™)

The magic of S.A.T. is accomplished with a simple and patented principle. There is a constant force to open a blade and a variable force that wants to close the blade. As one opens the blade the force to propel the knife open becomes greater than the closing force and the blade will open on its own. "The beauty of this is that we have come up with several mechanisms to accomplish this," says Spencer. The Flash and SOG Trident knives use a piston lock, the Blink uses a lockback, and the Twitch knives use a lockback with a pass-through lockbar. These are just a few of the mechanisms that we are working on that are covered under multiple patents. Most of the opening springs we are using are high-tension coil springs. These springs work through the entire range of opening (180 degrees) insuring reliability and long life. S.A.T. allows us to use locking mechanisms that are stronger and more reliable than the conventional liner locks and that are easier and safer to use. This is definitely one of the pluses of S.A.T., since a knife is only as good as its lock. Also, our locks are much easier to access ambidextrously (we haven't forgotten about you lefties!).

The Arc-Lock™

The simple designs are sometimes the hardest to figure out, but this is a great one. The Arc-Lock consists of a lock block that rotates, using an omega spring. It's this simple rotation that provides tremendous locking strength, sufficient closing force to keep the blade in the handle, as well as give the blade a little opening boost. This minimum amount of moving parts provides reliability and long cycle life.

SOG HardCased Titanium Nitride (TiNi) Finish

Titanium Nitride coatings are some of the toughest coatings that can be applied to steel. They exhibit extreme hardness, are exceptionally scratch and peel resistant, and help increase longevity. This coating is applied using a unique process of plasma deposition that occurs in a complete vacuum.

Cryogenic Heat Treatment

Look for the new Cryogenic Heat Treated logo on selected SOG Knives that have undergone this state of the art process. For more information our Cryogenic Heat Treatment see page 14.

Tactical Nylon Sheath

Try on these new military carry sheaths that are standard issue with many of our products. Input from our tactical advisors indicated that military departments are changing their uniforms and requirements for attaching hardware. We took this information and designed something new in knife carry, the Tactical Nylon sheath. Our secondary pouch on the front allows you to complete your gear with a SOG multi-tool or folder. The modular mounting system on the back is the most versatile possible; military belts, MOLLE type applications, belts, vests, etc. are all easily mounted to quickly and securely.

san mai steel

SOG san mai blades are crafted from three layers of steel that are sandwiched together in the tradition of Japanese swords. This forging technique enables the blade to be constructed with a very hard center core (VG-10) and softer outer layers (420J2). San mai steel is the best combination of edge holding and blade flexibility making it extremely unlikely that breakage will occur. The tell tale visible line near the edge of the blade alerts you that you are in possession of a very elite SOG.

Compound Leverage™

Compound Leverage has become a SOG patented trademark for folding tools. With the same hand pressure you will generate twice the wire cutting and gripping power than all other conventional designs. Don't believe us? Use the wire cutter on one of our Compound Leverage multi-tools to cut some hard wire and feel the smooth power. Then do the same with someone else's multi-tool...
...and try not to bust your hand.

PowerLock®

As one of the original multi-tool manufacturers, we have learned quite a bit over the years. Like how to make the toughest tools with patented gear driven compound leverage mechanisms. You have let us know, that quick access is a must. Just flip our tools out with one hand and see for yourself how well we listened. Versatility in the field is a necessity and hex bolt construction provides access. There is also a myriad of features that you might not readily see, like our saws cut faster and our files shave better. And while you are at it check out one of the best scissors in the business. Does all this make sense? You bet, which is why leading military forces choose SOG!

Gear Covers provide a new sense of hand comfort, especially when using the screwdriver components.

PowerLock

Closed: 4.6"
Open: 7"
Weight: 9.6 oz.
Comes with: Nylon Pouch
Option: Leather or MOLLE Pouch

Components: pliers/gripper, hard wire cutter, crimper, double toothed wood saw, 1/2 serrated blade, 3-sided file, large screwdriver, Phillips screwdriver, 1/4" drive, awl, can opener/small screwdriver, bottle opener/medium screwdriver, scissors, rulers, and lanyard ring. New EOD version available with fuse well spike.

Models:

S60	Standard
B60	Black Oxide
S61	EOD Standard
B61	EOD Black Oxide
S62	Standard w/V-Cutter
B62	Black Oxide w/V-Cutter
S63	EOD Standard w/V-Cutter
B63	EOD Black Oxide w/V-Cutter
S69	EOD 2.0 w/Fuse Well Spike
B69	EOD 2.0 Black Oxide w/Fuse Well Spike

Try out our new patent pending Piano-Locks™ that perform better. You're going to love playing these keys!

The patent pending V-Cutter in SOG tools opens up possibilities. Whether cutting seat belt, paracord, fishing line, zipping electrical cable sheathing, opening packages or stripping wire, the V-Cutter performs at a higher level, guaranteed!

One-handed flip open
available on PowerLock
and PowerPlier series

PowerAssist™

SOG makes the only multi-tools in the world with one-handed flip opening and gear driven patented Compound Leverage for double the plier power... the PowerAssist takes these principles to a new level. This is the first multi-tool in the world that houses not just one but two assisted opening blades. Start to open the main blades, which are available when the tool is closed, and S.A.T. (SOG Assisted Technology) takes over to complete the opening. When not in use, blades lock closed using our patent pending side release. It's never been easier! Flip open the tool and experience the precision of the heavy-duty plier capability and large wire cutters. Smooth handle surfaces promote comfort on even the toughest jobs. While open, five other components are now available and individually lock open with the patent pending Piano-Locks. You're going to love playing these keys! Also includes the gear covers, hex bolt construction, V-Cutter, and built-in crimpers.

When it comes to tough... look to SOG!

The PowerAssist is the first multipurpose tool with assisted opening blades. Feel the magic of SAT, now in a tool.

PowerAssist

Open: 7.125"
Closed: 4.675"
Blade: 2.75" x .120"
Edge: Straight and Serrated
Finish: Satin or Black Oxide
Weight: 9.3 oz.
Comes with: Nylon Pouch
Option: Leather or MOLLE Pouch

Components: pliers/gripper, hard wire cutter, crimper, straight edge blade, fully serrated blade, 3-sided file, large screwdriver, Phillips screwdriver, can opener/small screwdriver, bottle opener/medium screwdriver, scissors, rulers, and lanyard ring.

EOD version available with fuse well spike in place of Phillips screwdriver, file and bottle opener/medium screwdriver.

Models:

S66 Standard
B66 Black Oxide
S67 EOD Standard
B67 EOD Black Oxide

Multiple Patents Pending

SOG's PowerLock, PowerAssist, PowerCut, EOD tools and Paratool also come in a black oxide coating for low reflectivity. We know that not everyone wants their SOG to attract attention while on duty... especially when it's on the field of battle.

Paratool®

The Paratool is the only multi-tool with a multiple angled plier head capability. The unique, patented way the Paratool opens allows for the ability to operate at a variety of angles (140°-180°), indispensable in tight spots. The comfort grip handles are smooth on the outside and feature SOG's classic ventilation holes for maximum gripping. Be prepared with the Paratool.

Multiple angled
plier head capability

Another great patented design from Spencer Frazer with special thanks to Blackie Collins.

Paratool • S31

Closed: 4.3"
Open: 6.4"
Weight: 6.2 oz.
Comes with: Nylon Pouch

Components: pliers/gripper, wire cutter, serrated blade, straight blade, 3-sided file, large screwdriver, Phillips screwdriver, awl, can opener/sm. screwdriver, bottle opener /med screwdriver, rulers, and lanyard ring (optional saw or serrated line cutter).

Models:

S31 Standard (shown)
B31 Black Oxide

Nylon carry pouch standard for PowerLock, PowerAssist, Paratool and Pocket PowerPlier.

Leather pouch optional for PowerLock, PowerAssist and Pocket PowerPlier

EOD PowerLock 2.0

Closed: 4.6"
Open: 7"
Weight: 9.6 oz.
Comes with: Nylon Pouch
Option: Leather or MOLLE Pouch

Components: pliers/gripper, hard wire cutter, crimper, 1/2 serrated blade, 3-sided file, large screwdriver, Phillips screwdriver, awl, can opener/small screwdriver, bottle opener/medium screwdriver, rulers, lanyard ring, and new C-4 spike.

Models:

S69 EOD 2.0 w/Fuse Well Spike
B69 EOD 2.0 Black Oxide w/Fuse Well Spike

EOD PowerLock™ 2.0

SOG's EOD multipurpose tools feature the only Compound Leverage blasting cap crimper, making crimping so much easier. Unlike all other designs, the crimper jaws are mounted on the opposite side of the plier head, inside the handles, allowing for an uninterrupted plier jaw and minimizing crimper/plier breakage.

Pocket PowerPlier • S44

Closed: 4"
Open: 6"
Weight: 5.5 oz.
Comes with: Nylon Pouch
Option: Leather Pouch

Components: pliers/gripper, wire cutter, 1/2 serrated blade, 3-sided file, Phillips screwdriver, awl, can opener/small screwdriver, bottle opener/medium screwdriver, rulers, and lanyard ring.

Models:

S44 Standard (shown)
S45 Deluxe - add 1/4"
Drive and Substitute
Large screwdriver
for Awl

Pocket PowerPlier™

Our quick deployment P3 is lighter, sleeker, and just as durable as our larger tools. Who says that great things don't come in smaller packages? We managed to downsize the same power and durability while maintaining the key features of compound leverage, one hand flip opening, and hex bolt construction. It's a smart choice for those on the go.

With Compound Leverage the same hand pressure you will generate twice the wire cutting and gripping power than all other conventional designs. Don't believe us? Use the wire cutter on one of our Compound Leverage multi-tools to cut some hard wire and feel the smooth power.

Aegis™

Aegis (ee-jis), which in Greek means shield or protection, is also the code name for the world's premier integrated air defense system and the sea-based element of the United States Ballistic Missile Defense System. It is the only operational radar and weapon system capable of simultaneous warfare against air, surface, subsurface and land targets.

Our comprehensive Aegis line of premier folders is fully integrated with top end systems. Take the new modified arc actuated piston locks that enable and support several blade configurations. Start to open the knife, and let Aegis finish the action with a bang, using one of the surest assisted technologies (S.A.T.) out there! Our trademark bayonet reversible clip, built in safety with red/ready to go, checkered DigiGrip™ handles, and tacky rubber inserts all contribute to make Aegis a platform for today's changing world. Cover your back with Aegis outdoor or tactical blades.

Aegis

Length:	8.25"
Blade:	3.5" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Satin Polish or Black TiNi
Edge:	Straight or Partially Serrated
Weight:	3.1 oz.
Handle:	Zytel with Kraton Inserts
Comes with:	Reversible Bayonet Pocket clip

Models:

AE-01	Satin Polish
AE-02	Black TiNi
AE-04	Black TiNi Tanto Serrated
AE-06	Digi Camo Black TiNi
AE-07	Digi Camo Black TiNi Tanto Serr.

SOG-TAC™ Automatic

Our customers have been asking for us to produce a tactical switchblade for years. But we waited... because we wanted to do something really special. The SOG-TAC is an invigorating new design that looks like nothing else. It is big, but relatively slim, and specifically tailored to the professional. Blade travel is definitely fast and once open it locks up like a floor safe. The machined 6061-T6 hard-anodized aluminum is inset with G10 type textured inlays for increased grip. Includes: A safety button that double locks the blade in the open/closed position, our reversible bayonet style clip and an aggressive upswept blade. We think it was well worth the wait!

LE/MIL USE ONLY

SOG-TAC Automatic

Length:	8"
Blade:	3.5" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi or Satin Polish
Edge:	Straight or 1/2 Serrated
Weight:	3.8 oz.
Handle:	Hard Anodized Aluminum
Comes with:	Reversible Bayonet Pocket clip

Models:

ST-01	Satin Polish
ST-02	Black TiNi
ST-03	Black TiNi 1/2 Serrated
ST-04	Black TiNi 1/2 Serr. Tanto

Now available with 1/2 serrated and tanto blades.

SOG-TAC™ Mini Automatic

These scaled down fully automatic knives share all the same features as the larger version. They differ in that the handles are solid machined aluminum instead of using the layered inserts.

Hold on tight, they also open at unbelievable speeds!

SOG-TAC Mini Automatic

Length:	6.75"
Blade:	3" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi or Satin Polish
Edge:	Straight or 1/2 Serrated
Weight:	2.5 oz.
Handle:	Hard Anodized Aluminum
Comes with:	Reversible Bayonet Pocket Clip

Models:

ST-10	Satin Polish
ST-11	Black TiNi
ST-12	Black TiNi 1/2 Serrated
ST-13	Black TiNi 1/2 Serr. Tanto

Luminescent painted logo for easy location at night

S.A.T.™ (SOG Assisted Technology)

Patented S.A.T. (SOG Assisted Technology) propels the blade out once the operator has initiated the one-handed opening action. World-famous designer Spencer Frazer: "I had this idea that I could devise a whole new technology to help open a knife blade quickly and easily." S.A.T. works so well that right-handers can use their left hand equally well to open a folding knife (of course this works oppositely for lefties!). We warn you... this blade action is addictive! Play with it once, and you'll be opening it again and again!

Flash™ Series

The Flash has got to be one of the coolest knives we've ever seen. Forget its wicked-quick blade access, that it handles like a racecar on rails, or that it locks up like Alcatraz. It just looks and feels extraordinary. The Flash family of knives feature SOG Assisted Technology (S.A.T.), which employs a powerful piston lock that is easily released with the new Arc-Actuator on the Flash II. We also had the foresight to incorporate an additional safety lock that gives added security when the blade is closed. Note that when the safety shows red...

...YOU ARE READY TO GO!

The Flash comes standard with glass-reinforced Zytel® handles and 1/2 serrated blades. Options include straight edge blade, black TiNi 1/2 serrated blade/clips/pivot, hard-anodized 6061-T6 aluminum handles. All Flashes come standard with SOG's patent pending, reversible bayonet mounted clip that ensures the lowest, most discreet carry possible.

Flash I

Open: 5.75"
Blade: 2.5" x .090"
Steel: AUS-8 Stainless - Rc. 57-58
Edge: 1/2 Serrated or Straight
Weight: 1.3 oz.
Handle options: Zytel or 6061-T6 Machined Aluminum
Comes with: Reversible Low Carry Bayonet Clip

Zytel Handle Models:

FSA-7 Straight
FSA-97 1/2 Serrated
TFSA-97 1/2 Serrated, Black TiNi Blade, Pocket Clip and Hardware

Aluminum Handle Models:

SGFSA-97 1/2 Serrated
STGFSA-97 1/2 Serrated, Black TiNi Blade, Pocket Clip and Hardware

The SOG trademark low carry pocket clip holds the knife completely in your pocket so it disappears to the outside world.

New & Improved

Flash II

Open: 8"
Blade: 3.5" x .125"
Steel: AUS-8 Stainless - Rc. 57-58
Edge: 1/2 Serrated or Straight
Weight: 3.1 oz.
Handle options: Zytel, Camo Zytel or 6061-T6 Machined Aluminum
Comes with: Reversible Bayonet Pocket Clip

Zytel Handle Models:

FSA-8 Straight
FSA-98 1/2 Serrated
TFSA-98 1/2 Serrated, Black TiNi Blade, Pocket Clip and Hardware
FSA-5 1/2 Serrated, TigerStripe with Black TiNi Pocket Clip and Hardware
FSA-6 Rescue

Aluminum Handle Models:

SGFSA-98 1/2 Serrated
STGFSA-98 1/2 Serrated, Black TiNi Blade, Pocket Clip and Hardware

Camouflage Handle Models:

CFSA-8 Straight
CFSA-98 1/2 Serrated
CTFSA-98 1/2 Serrated, Black TiNi Blade, Pocket Clip and Hardware

Digi Camo Handle Models:

DFSA-98 1/2 Serrated, Black TiNi Blade, Pocket Clip and Hardware

Our mission was to create an updated SOG folding knife based on historical proven design but launched from a platform of new technology. Somehow, when you see it, you immediately know it is a SOG. When you use it, you definitely know it is a SOG. At a casual glance it has elements of our original SOG Bowie, Tomcat, SEAL Pup, Flash, etc. Upon a closer look, it has features never before put into a knife.

The Trident uses our well-proven means of delivering a knife blade to the open position with S.A.T. Now using our patent pending Arc-Actuator™, the Trident locks stronger and releases easier. There is also a built-in safety to lock the blade closed. When it shows red, you are ready to go.

What also makes the Trident so unique is the patented Groove™ in the handle, which allows the operator to cut paracord, fishing line, etcetera without having to open the blade. Read the story of how an active duty Navy SEAL invented this on page 5.

The Trident's blade is an evolution as well. Taking key elements from previous blade shapes created a distinct hybrid of form and function.

Check out the introduction of a whole new tactile handle concept called Digi-Grip™. With this variable patterning, we can create a coarser grip in areas that require it. Aggressive touch point scallops on key areas of the perimeter complete the look. You will also appreciate the thought behind our bayonet style clip, which is easily switched for right/left hand carry or removed for pouch storage.

The Trident embodies the spirit of elite special forces throughout the world. The only thing that it doesn't come with is testosterone... you have to supply that.

Trident

Open:	8.5"
Blade:	3.75" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	1/2 Serrated or Straight
Weight:	3.6 oz.
Handle:	Zytel
Comes with:	Reversible Bayonet Pocket Clip

Models:

TF-1	1/2 Serrated Black TiNi
TF-2	Straight Edge Satin Polish
TF-3	1/2 Serrated TigerStripe Blade
TF-5	1/2 Serr. Desert Camo
TF-6	Tanto Straight Edge Satin Polish
TF-7	Tanto Straight Edge Black TiNi
TF-10	1/2 Serr. Black TiNi Digi Camo
TF-11	Tanto Str. Edge Black TiNi Digi Camo

Assisted Lockbacks

Patented S.A.T. (SOG Assisted Technology) brings the standard lockback knife (which is one of the oldest known knife locks on the planet) into the 21st century. This new concept will change your idea of what folding knives can be. Once the operator has initiated the blade opening action, S.A.T. propels the stainless steel blade out and firmly locks it into place. We warn you... this blade action is addictive. Play with it once, and you'll be opening it again and again. We have even included a built-in safety that either locks the blade closed or can double lock the blade open.

Twitch I™

Looking at the intricate construction of the Twitches reminds us of the workings in a fine chronograph watch... everything right and precisely in its place. These techno wizards feature a pass-through lockbar (patent pending) from which the "kick" of the blade sticks through. By pressing on the "kick", one is able to initiate the opening of the blade. SOG Assisted Technology (S.A.T.) then takes over to finish opening and to securely lock the blade open. What makes these space-age little gems even more beautiful is that they are also affordable!

Twitch I • TWI-7

Open:	4.75"
Blade:	2.0" x .100"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight
Weight:	2.0 oz.
Handle:	Hard-Anodized 6061-T6 Machined Aluminum
Comes with:	Money/Pocket Clip

Twitch II™

Twitch II • TWI-8

Open:	6.2"
Blade:	2.68" x .100"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight
Weight:	2.6 oz.
Handle:	Hard-Anodized 6061-T6 Machined Aluminum
Comes with:	Money/Pocket Clip

Cryogenic Heat Treatment

**CRYOGENIC HEAT
TREATED**

SOG's unique cryogenic heat treatment process increases the toughness and wear resistance of our blades. We take the knife slowly down in temperature to less than -300° F and then back to room temperature. This stress relieves the material on an atomic level and increases overall strength as well as edge retention. Knife edges stay sharp longer with significantly less micro-fracturing and edge-chipping. It's this dedication to making your knife SOG sharp that sets us apart from the rest.

Look for the new Cryogenic Heat Treated logo on selected SOG Knives that have undergone this state of the art process.

Twitch XL

Open: 7.5"
Blade: 3.25" x .125"
Steel: AUS-8 Stainless - Rc. 57-58
Edge: Straight
Weight: 4.2 oz.
Handle: Hard-anodized 6061-T6
Machined Aluminum
Comes with: Reversible Bayonet Pocket Clip

Models:

TWI-20 Graphite Handle
TWI-21 Black Handle w/ Black TiNi Blade, Pocket Clip and Hardware
TWI-22 Black Handle
TWI-201 Tanto w/Graphite Handle
TWI-211 Tanto w/Black Handle and Black TiNi Blade
TWI-221 Tanto w/Black Handle

Twitch XL™

The XL is classy... it moves well, looks right, walks the walk, and talks the talk. It is not just a larger version of a Twitch. It is serious business that can more than get the job done. This is a high-tech statement of sophistication with all the bells and whistles that you expect from the designers at SOG. The fine construction comes together to make the XL one of the most practical and beautiful knives that we have ever handled.

TWI-21

TWI-201

Blink • BBA-99

Open: 5.37"
Blade: 2.25" x .100"
Steel: AUS-8 Stainless - Rc. 57-58
Edge: Straight
Weight: 2.1 oz.
Handle: Hard-Anodized 6061-T6
Machined Aluminum
Comes with: Reversible Low-Carry Money/Pocket Clip

Blink™

Blink... and you just might miss it. This robust little knife cuts with the 'big boys' and features a reversible low carry clip. At its well-mannered price, the Blink is the gentleman's knife with a naughty attitude.

Bi-Polar™

The Bi-Polar is very capable. It's also the first dual assisted knife with twin blades. Using patented S.A.T., each blade is propelled out once the operator has initiated the blade opening action. It might be the perfect rescue knife, whether used by law enforcement, emergency medical personal or in your garden releasing the grip of a tenacious vine. We think the Bi-Polar is the perfect combination of might and right with main blade, patent pending V-Cutter, and glass breaker. Our V-Cutter will easily cut seatbelt material, paracord, fishing line, strip most types of wire, zip electrical cable sheathing, open packages, cut nylon banding straps, etc. Dual blades, double lockbars and twin safeties all work to lock the blades closed or double lock the blades open.

Expand your world with the Bi-Polar.

Glass Breaker Built Into the Handle

Bi-Polar

Length:	7.5"
Blade:	3" x .120"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Satin Polish or Black TiNi
Edge:	Straight
Weight:	5.7 oz.
Handle:	Hard Anodized 6061-T6 Aluminum with G10 Type Grips
Comes with:	Hardened Steel Glass Breaker

Models:

BP-1	V-Cutter - Satin Polish
BP-2	V-Cutter - Black TiNi
BP-3	Serrated - Satin Polish
BP-5	V-Cutter & Serrated Blade

Wire Stripper Bar for
12-24 AWG Wire

High Voltage Tower
Pocket Clip

Adjustable Spring-Loaded
UTP/Wire Stripper

Kilowatt™

Get 'charged up' with the Kilowatt, the first working theme knife designed for the electrician, homeowner, contractor, or anyone who might need to strip wire in a pinch. Three separate systems address wire from fine multi strand all the way up to cable. There is a stripper bar for wire sizes of 12-22, an adjustable spring-loaded UTP/wire stripper in the back, and just in case... our patent pending hole stripper that uses the main blade. Schematic grips, insulator thumb stud, and a blade with receptacle engraving are signatures that make this a very unique liner lock knife.

Kilowatt • EL-01

Length:	7.5"
Blade:	3.4" x .120"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Satin Polish
Edge:	Straight
Weight:	3.3 oz.
Handle:	Glass Reinforced Zytel
Comes with:	Pocket Clip, Wire Strippers

Multiple Patents Pending

Also Available with Partially
Serrated Drop Point Blade.

Topo Meridian™

The Topo Meridian is perhaps the wildest design that we have ever seen and definitely one of the coolest. Featuring patented S.A.T. (SOG Assisted Technology), pass through lock bar with blade kick activation, engineered built in safety that locks closed and double locks open, upswept blade maximizes cutting edge length, and an ambidextrous design with wave-like grip SOG continues to delight with innovation and forward thinking to bring you products that make you stand out, products that are as individual as you are.

Topo Meridian

Open:	7.25"
Blade:	3.25" x .125"

Edge:	Straight
Weight:	4.5 oz.
Handle:	Layered Machined Aluminum/Zytel
Comes with:	Pocket/Money Clip

Models:

M46T	Black Hardcased TiNi
M46	Satin Polish
M46D	Drop Point - Satin Polish

Patented

The SOG Arc-Lock™

The patented Arc-Lock just might be the perfect lock. Why? It is totally ambidextrous and has all of the attributes knife designers relentlessly search for, but rarely find. **Strength:** The Arc-Lock far surpasses conventional lock strength, tested at over 1000 pounds of force measured at the lock in an independent lab test. **Speed:** The Arc-Lock provides lightning-quick, one-handed opening and closing capability. **Safety:** Spring-action securely retains the blade closed. When unlocking, the fingers are safely kept clear. **Durability:** The Arc-Lock is self-adjusting over time and can be easily cleaned for long term optimal performance.

Visionary™ I & II

Visionaries are leaders because they dare to see beyond the present. We think that this new expansion on the Vision series will captivate you with its sense of style and performance. 'Practical tactical' is a phrase that we coined to designate tactical knives that you can use everyday. Although many of the SOG line of products fit this bill, the Visionaries seem to be the perfect embodiment.

Visionary knives keep a quiet profile with their non-reflective black powder coat finish and SOGs trademark low carry pocket clip. Ambidextrous Arc Lock and clip, woven texture Zytel glass reinforced handle, and VG-10 blade make a compelling package. Handle the Visionaries and tell us what you see.

Visionary I • VS-01

Open: 7"
Blade: 3" x .120"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Black Powder Coated
Edge: Straight
Weight: 3.0 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Bayonet Pocket Clip

Visionary II • VS-02

Open: 8.37"
Blade: 3.75" x .125"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Black Powder Coated
Edge: Straight
Weight: 4.3 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Bayonet Pocket Clip

All knives in the Vision and Visionary series now feature SOG's trademark low-carry bayonet pocket clip for the lowest most discrete carry.

Vision™

Rotating out of a space-age titanium handle is the radical blade of the award-winning Vision. The geometric grind lines focus power on the edge and tip of the polished VG-10 blade. Completely corrosion proof, the titanium handle is lightweight like aluminum, but as strong as steel. Other features include SOG's Arc-Lock, dual thumb studs, and our trademark reversible bayonet clip.

Vision • SV68

Open: 8.37"
Blade: 3.75" x .125"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Satin Polish
Edge: 1/2 Serrated
Weight: 5.7 oz.
Handle: Titanium w/Stainless Liners
Comes with: Reversible Bayonet Pocket Clip

X-Ray Vision™

The X-Ray Vision, with its finely textured black Zytel handle and bead-blasted blade finish, is designed not only for performance, but also for value.

X-Ray Vision • XV71

Open: 8.37"
Blade: 3.75" x .125"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Bead Blasted
Edge: 1/2 Serrated
Weight: 4.3 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Bayonet Pocket Clip

Mini X-Ray Vision™

The smaller version of the X-Ray Vision, the Mini X-Ray Vision comes with SOG's new reversible bayonet mounted clip for the lowest, most discreet carry possible.

Mini X-Ray Vision • MXV72

Open: 7"
Blade: 3" x .120"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Bead Blasted
Edge: 1/2 Serrated
Weight: 3.0 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Bayonet Pocket Clip

Pentagon Elite™

Since its debut, the Pentagon Elite series has achieved great popularity among the military and law enforcement community, as well as the general marketplace. The Pentagon Elite knives are impeccably balanced and feature ergonomic glass and Kevlar-reinforced Zytel handles, ambidextrous slotted thumb studs, machine screw construction, a low-reflective bead-blasted blade and clip, SOG's Arc-Lock system, and a reversible military-style clip that enhances gripping. Spearheading the Pentagon Elite is a shark tooth tip that increases point strength.

Pentagon Elite I • PE14

Open: 8.75"
Blade: 4" x .135"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Bead Blasted
Edge: 1/2 Serrated
Weight: 4.3 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Pocket Clip

Pentagon Elite II • PE18

Open: 10.75"
Blade: 5" x .160"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Bead Blasted
Edge: 1/2 Serrated
Weight: 6.8 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Pocket Clip

Spec Elite™

The Spec-Elite series utilizes the famous Pentagon Elite platform and capitalizes on one of the best locks in the world, the Arc-Lock. These racy blades are designed for high performance with a reverse curve main edge, VG-10 stainless steel, and quickness of opening.

Spec Elite I • SE14

Open: 8.75"
Blade: 4" x .135"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Bead Blasted
Edge: Straight
Weight: 4.3 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Pocket Clip

Spec-Elite II • SE18

Length: 10.75"
Blade: 5" x .160"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Bead Blasted
Edge: Straight
Weight: 7.1 oz.
Handle: Zytel w/Stainless Liners
Comes with: Reversible Pocket Clip

Vulcan

Length: 8.375"
 Blade: 3.5" x .160"
 Steel: VG-10 Stainless - Rc. 59-60
 Finish: Satin Polish
 Edge: Straight
 Weight: 5.0 oz.
 Handle: Zytel w/Stainless Liners
 Comes with: Reversible Bayonet Pocket Clip

Models:
 VL-01 Standard
 VL-03 Tanto with san mai Blade

Vulcan™

In the world of firepower, the General Electric M61A1 Vulcan is top dog with its 6-barrel 20mm cannon of the Gatling-type. It fires standard M50 ammunition at 6,000 rounds per minute and is integral part of the armament of modern fighters such as the F-15, F-16 and F-18. Our Vulcan series is just as formidable, thanks to the muscular construction. Take our patented Arc-Lock tested to over 1000 pounds of force at the lock. Or the full steel liners encased in glass reinforced Zytel handles. The thick VG-10 with spear point shape includes our new kick deployment system. Press on the back of the blade and the knife comes out fast. Real fast! Reversible clip, Arc-Lock, and double thumb studs make the Vulcan great for full ambidextrous use.

The Vulcan... Its no wimp

Mini Vulcan • VL-02

Length: 7.35"
 Blade: 3" x .125"
 Steel: VG-10 Stainless - Rc. 59-60
 Finish: Satin Polish
 Edge: Straight
 Weight: 3.4 oz.
 Handle: Zytel w/Stainless Liners
 Comes with: Reversible Bayonet Pocket Clip

Models:
 VL-02 Standard
 VL-04 Tanto with san mai Blade

Vulcan™ Tanto

These alien blade forms are for those who covet the exotic. There are few who can grind these types of shapes... let alone in san mai steel. 18 precision machine operations are required for each blade to be a masterpiece. Limited production. Available in two sizes regular and mini.

For those who take the road less traveled.

Stingray 2.0™

This is an evolution of the original Stingray, which helped bring in a new age of modern pocketknives and was just retired after more than 15 years of service... The Stingray 2.0 is the next era! It is a stout little rascal that reflects the thick blade stock of the original but enhanced with our unique san mai steel (see page 5). These beautiful pocket sculptures feature carbon fiber inlays, polished stainless steel handles, patented Arc-Lock, and stunning mother of pearl thumb studs. Despite it's sleek and smooth exterior, the Stingray is still SOG tough on the inside, guaranteeing you will have the answer to many of life's situations at your fingertips.

Stingray 2.0

Open: 6.625"
Blade: 3" x .130"
Steel: san mai (VG-10 Core Laminated with 420J2 Stainless) Rc. 59-60
Finish: Satin Polish
Edge: Straight
Weight: 3.6 oz.
Handle: Stainless Steel with Inlay

Models:

SR-02 Carbon Fiber
SR-03 Mother of Pearl - Limited Edition
SR-04 Mino Paper - Limited Edition

Tomcat 3.0™

Our first folding knife, the Tomcat, set the standard for the large format lockback and won the overall knife of the year award in 1988. Today the completely rethought Tomcat 3.0 will win your hearts and minds. Like a modern day tank, this heavy duty folder is big time armament but has the finesse to turn on a dime. For instance the 3.0 features our Arc-Lock that combines speed and safety in controlling the massive blade. There is also a new sense of ergonomic balance and feel that makes the Tomcat 3.0 a very soulful package.

Tomcat 3.0

Length: 8.65"
Blade: 3.75" x .160"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Satin Polish
Edge: Straight
Weight: 6.5 oz.
Handle: Kraton Handle with Stainless Bolsters
Comes with: Nylon Carry Pouch

Models:

S95 Kraton
S95CF Carbon Fiber - Limited Edition

Bluto • BL-01

Open: 5.5"
Blade: 2.25" x .130"
Steel: VG-10 - Rc. 59-60
Finish: Satin Polish
Edge: Straight
Weight: 3.2 oz.
Handle: Machined and Textured
6061-T6 Aluminum

The muscular stance and bulging form bely a quiet confidence. This little guy has its own point of view and the strength to back it up. With a very innovative textured machined aluminum handle, the Bluto handles well. Its VG-10 blade, Arc-Lock, and hardened scalloped steel liners make a rock solid package. The sweeping blade style is modern and functional and unique to the SOG line. Flex a new look with the Bluto.

Bluto™

Fatcat • FC-01

Open: 10.125"
Blade: 4.5" x .160"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Satin Polish with Black TiNi Bevel
Edge: Straight
Weight: 8.5 oz.
Handle: Titanium Bolster and Liner
with Kraton Handle
Comes with: Nylon Carry Pouch

The Fatcat is like our Tomcat after exposure to high levels of radiation. Our largest and most massive folder that we have ever produced, the Fatcat is not intended for the main stream; It is designed to be exceptional with never before seen details such as a dual tone TiNi coated blade. Anyone who picks up this knife is amazed at the lightness and quickness, which is attributed to the solid machined Titanium handle. Once started, the gigantic VG-10 blade effortlessly spins open and locks up with one of the world's greatest locks- the Arc-Lock. We have made a statement with the Fatcat... Are you ready to do the same? Limited production.

Fatcat™

Arcitech™

The Arcitech ushered in our Platinum line with exquisite high-end collectibility. Combining technical excellence with a spirited new design, the Arcitech has that trait that is so elusive... harmony. A mirror polished san mai (see page 5) exotic blade moves smooth as silk and mechanically effortless thanks to our very special Arc-Lock and Abalone jeweled thumb stud. The titanium bolsters meet old school jiggged bone handles in a rare and beautiful combination. The color of the jiggged bone handles vary in color from a deep maroon to flame yellow/black making each knife a unique piece. Investment collectable and very limited production.

Arcitech

Length: 8"
Blade: 3.5" x .125"
Steel: san mai (VG-10 Core Laminated with 420J2 Stainless)
Rc. 59-60
Finish: Polished
Edge: Straight
Weight: 4.5 oz.
Handle: Jiggged Bone or Carbon Fiber
w/Polished Titanium Bolsters and Liners
Comes with: Reversible Bayonet Pocket Clip

Models:

A01 Jiggged Bone
A02 Carbon Fiber - Limited Edition

Facet™

The Facet combines high class with high tech. It features a textured carbon fiber handle and exquisitely machined nickel silver bolsters. Turned back and forth in the light, it dazzles the eye. In the hand, it dazzles the mind with balance and grace. The san mai blade, Arc-Lock and hardened stainless steel liners add strength without compromise.

Facet • CT-01

Open: 6.75"
Blade: 3" x .130"
Steel: san mai (VG-10 Core Laminated with 420J2 Stainless)
Rc. 59-60
Finish: Satin Polish
Edge: Straight
Weight: 3.6 oz.
Handle: Nickel Silver Bolster and Textured Carbon Fiber

Exquisitely Machined Nickel Silver Bolsters

Access Card™

The Access Card 2.0 doesn't grant admission into top-secret facilities, but it does give a sense of security. This minimalistic sliver of a knife (3/16" thick without the clip) won't take up much room in your wallet, pocket, attached to a ballistic vest, or around your neck. The 2.75" formidable VG-10 blade opens and closes with one hand like a magic trick and locks up with our famous Arc-Lock. Although every bit of excess weight has been engineered out of the Access Card, you will be surprised at the power that it conveys. Also available in a Tactical Black version.

Access Card

Open: 6.2"
Blade: 2.75" x .080"
Steel: VG-10 Stainless - Rc. 59-60
Finish: Satin Polish or Black
Edge: Straight
Weight: 1.8 oz.
Handle: Stainless Steel
Includes: Low Carry Pocket Clip

Models:

SOGAC76 Satin Polish
SOGAC77 Tactical Black

Removable/Reversible Low Carry Pocket Clip

Custom Shop

Our triple canopy TigerStripe and Digi Camos are proprietary SOG processes that create layers and shades in an unprecedented detail. Available on all black oxide and TiNi coated products at a nominal cost for the individual that appreciates distinction.

SEAL Knife Series: After surviving one of the most extensive test and evaluation programs ever undertaken by the U.S. Government that included knives from most U.S. cutlery manufacturers, the SOG SEAL Knife triumphed. The SEALs are one of the most specialized elite military groups in the world today. SEALs must undergo one of the most rigorous training programs devised to produce the consummate warrior. Only a select few endure and earn the right to wear the SEAL Trident on their uniform. Now available for the civilian market in several sizes, you can be assured that the SEALs have done their homework, so you don't have to.

SEAL Pup™

The SEAL Pup, our most popular fixed blade, is the mini rendition of the SEAL Knife. It offers the same durability and performance and is an excellent field companion for outdoor and underwater adventures.

SEAL Pup • M37

Length: 9"
Blade: 4.75" x .160"
Steel: AUS-6 Stainless - Rc. 56-57
Coating: Powder Coated
Edge: 1/2 Serrated
Weight: 5.4 oz.
Handle: Zytel
Comes with: MOLLE Nylon Sheath
Option: Kydex Sheath

Models:
M37 Powder Coated
M37T TigerStripe

New TigerStripe pattern available on the SEAL Pup and SEAL Pup Elite

SEAL Team™

SEAL Knife Evaluation:

The SEAL knife evaluation program included: tip breaking stress, blade breaking limit, sharpness, edge retention, handle twist off force, two week salt water immersion tests, gasoline and acetylene torch resistance, chopping, hammering, prying, penetration tests, cutting six different types of rope and line, low noise and reflectivity evaluation, plus an intense hands-on competition in the field.

SEAL Team • S37

Length: 12.3"
Blade: 7" x .240"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Grey Powder Coated
Edge: Partially Serrated
Weight: 10.3 oz.
Handle: Zytel
Comes with: MOLLE Nylon Sheath
Option: Kydex Sheath

SEAL Pup Elite™

The SEAL Pup Elite is our high performance edition to the existing SEAL family of products. Sometimes... we just 'have to have' more horsepower, the racing suspension, and every available option including sunroof. All kidding aside... the SEAL Pup Elite is serious business and carries on the tradition of supplying the worlds elite military forces. Features include: Thicker steel stock (.185"), AUS8 Stainless steel, black Hardcased™ TiNi finish, longer ergonomic handle with deeper finger grooves, racy new blade shape with longer cutting edge, and blade spine rasp for notching, filing, and thumb placement

Super charged performance for the elite in us all!

SEAL Pup Elite • E37T

Length: 9.5"
Blade: 4.85" x .185"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Black TiNi
Edge: Partially Serrated or Straight
Weight: 5.4 oz.
Handle: Zytel
Comes with: MOLLE Nylon Sheath
Option: Kydex Sheath

Models:

E37 Satin Finish/Straight Edge
E37S Black TiNi/Straight Edge
E37T Black TiNi/Partially Serrated
E37TS TigerStripe/Partially Serrated

SEAL Team™ Elite

Our battle proven SEAL Knife series has an incredible reputation for reliability and performance on fronts throughout the world. Building on this reputation wasn't easy. It took everything we had to top ourselves. But we think, you will think, that we have done it right. Features include: Matte black Hardcased™ TiNi blade, newly longer ergonomic handle with deeper finger grooves, racy new blade shape with longer cutting edge, spine rasp for notching, filing, and thumb placement and new MOLLE compatible tactical Nylon sheath.

SEAL Team Elite • SE-37

Length:	12.3"
Blade:	7" x .240"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black Hardcased TiNi
Edge:	Partially Serrated
Weight:	10.3 oz.
Handle:	Zytel
Comes with:	MOLLE Nylon sheath
Option:	Kydex sheath

Tigershark™ Elite

In the presence of the revised Tigershark series, one's pulse quickens. It is instantly recognized for its signature handguard and defensive rear point, which are removable for a more streamlined look. But it is also familiar as the largest member of the SEAL series with precise grind lines, scalloped back edge, touch point checkering, and superior ergonomics. The Tigershark is capable of chopping and slicing with an economy of scale and ferocity not available to smaller knives. Still, it's impeccable balance and style create fluidity in the hand that is unexpected and thrilling.

Tigershark Elite

Length:	15.25"
Blade:	9" x .240"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Grey Powder Coated or Black TiNi
Edge:	Partially Serrated
Weight:	16.3 oz.
Handle:	Zytel
Comes with:	Nylon Sheath

Models:

TE-01	Grey Powder Coated - No Scallops
TE-02	Black TiNi - With Scallops

*Includes removable handguard and defensive point.
Check local and state laws before installing.*

Daggert and Gov-Tac

The challenge was to create a new breed of extreme fixed blades... suitable for today's modern military, capable night and day, wet or dry, and able to be carried in a variety of ways. But you might ask, what could possibly be new in a fixed blade? The Daggerts and Gov-Tac easily answer this question with contemporary solutions and have been tuned and tweaked for performance at every level.

Features include:

- An instinctual new handle shape with bold diamond checkering and scored with grip lines
- Signature washer construction with a molded Kraton rubber grip handle
- SOG's proprietary Hardcased™ TiNi matte black coating on blade, pommel, and crossguard
- A proven robust blade style with flat ground bevels, precision ground grooves, and serrated edge
- Stainless steel sculpted crossguard and pommel (capable of being used as a field hammer)

Gov-Tac™

The Gov-Tac transcends the printed page. You will have to handle it to appreciate that the 'sum' of this knife is so much greater than just its parts. Double precision ground grooves, thumb control ridges, and an extremely thick blade all contribute to this stunning knife.

GOV-TAC • S21T

Length: 11.4"
Blade: 6.1" x .200"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Black TiNi
Edge: Straight
Weight: 9.6 oz.
Handle: Kraton Rubber
Comes with: Kydex Sheath

Models:
S21T Black TiNi
S21B Bead Blasted

Daggert™ 2

Who would have thought how far a fixed blade could come! The Daggert is a well thought out complete package. The only thing left for you to decide is which finish.

Daggert 2 • D26T

Length: 11.85"
Blade: 6.6" x .200"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Black TiNi
Edge: Straight/ 1/2 Serrated
Weight: 8.5 oz.
Handle: Kraton Rubber
Comes with: Kydex Sheath

Models:
D26T Black TiNi
D26B Bead Blasted

Kydex Sheaths:

SOG's Kydex sheaths are designed to be tough in all types of weather and environments. They are military belt and jump rated. Able to be mounted upside down, sideways on a belt, or strapped to an ankle, these self-draining, futuristic scabbards use a friction fit as well as a back-up nylon strap for knife retention.

Mini Pentagon™

Mini Pentagon • M14

Length: 7.875"
Blade: 3.625" x .125"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Powder Coated
Edge: Straight/ Serrated
Weight: 3.3 oz.
Handle: Hardened Kraton
Comes with: Kydex Sheath

Originally designed as back-up for law enforcement and military personnel, the Pentagon series is now popular with outdoor knife enthusiasts as well. These redesigned and improved knives offer an instant choice between a serrated or beveled edge for cutting options. Twin thumb notches enable accurate blade orientation and downward control. The aggressively checkered, flared handles provide confident gripping as well as sensational feel and balance.

Pentagon™

Pentagon • S14

Length: 9.75"
Blade: 5" x .125"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Satin Polish
Edge: Straight/ Serrated
Weight: 5.6 oz.
Handle: Kraton
Comes with: MOLLE Nylon Sheath

Field Pup™

"It's just about the perfect size, weight, feel and balance," is the comment we hear from wilderness guides who handle the Field Pup for the first time. It's comfortable to use with its Kraton molded handle that form fits the full tang blade. SOG's trademarked finger grips are combined with aggressive thumb notches on the back of the blade, making the Field Pup a real working knife. The blade is also protected by SOG's new nylon sheath.

Field Pup • FP3

Length: 8.5"
Blade: 4" x .130"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Satin Polish
Edge: Straight
Weight: 4.0 oz.
Handle: Kraton Rubber
Comes with: MOLLE Nylon Sheath

SOG Field Knives:

SOG stands for the Studies and Observation Group, an elite joint services military group in Vietnam designed for covert operations. Sanctioned to develop and purchase their own equipment, SOG created knives for use in one of the harshest environments in the world. It is in this spirit that SOG Specialty Knives & Tools, Inc. was founded.

SOG Bowie 2.0

Our modern replica of the original Studies and Observation Group knife secretly developed and used in the Vietnam War by the 5th Special Forces and other elite soldiers. These individuals were specialists in reconnaissance, infiltration, and behind lines operations. The SOG Bowie 2.0 has become a classic that is unparalleled in quality. The sculpted crossguard, deep hollow grinds and precision detailing, such as the all TiNi coating, and faceted tip are unmistakable signatures.

SOG Bowie • S1T

Length: 11"
Blade: 6.4" x .230"
Steel: AUS 8 - Rc. 57-58
Finish: Black TiNi
Edge: Straight
Weight: 12 oz.
Handle: Epoxied Leather Washers
Comes with: Leather Sheath with Sharpening Stone

SOG custom cylinder nut on the Bowie 2.0, Super SOG Bowie, Agency, Tech Bowie and Trident 2.0.

Super SOG Bowie™

How appropriate that for our 20th anniversary we launched a new adaptation of the original SOG Bowie that founded the company. This large format 7-1/2" blade will stun you with its exacting construction and precise grind lines. Unlike the originals, all parts are protected with our Black TiNi Hardcased coating that is the very best for appearance and performance. The stacked leather washer handle is completely traditional. SOG today is 20 years smarter and our products show it.

Super SOG Bowie • SB1T

Length: 12.875"
Blade: 7.5" x .250"
Steel: AUS 8 Stainless - Rc. 57-58
Finish: Black TiNi
Edge: Straight
Weight: 17.4 oz.
Handle: Epoxied Leather Washers
Comes with: Leather Sheath with Sharpening Stone

Agency™

The Agency follows a SOG tradition of recreating and modernizing historic classics. This unique knife was shrouded in secrecy and originally created for special CIA operatives in the early days of the Vietnam War. It was designed for clandestine and counter insurgency teams who lived in the jungle for months at a time and saw vicious close quarter combat. Never before reproduced, the beautiful flowing lines of blade and handle have been retained. We vastly improved the construction and quality with modern materials like TiNi coatings and epoxy filled leather washers that were unknown at that time. An exquisite design of the highest caliber, the SOG Agency captures the mystique of a positively unique fixed blade.

NEW

Agency

Length:	12.675"
Blade:	7.5" x .150"
Steel:	AUS 8 Stainless - Rc. 57-58
Finish:	Black TiNi or Satin Polish
Edge:	Straight
Weight:	9.6 oz.
Handle:	Epoxied Leather Washers
Comes with:	Leather Sheath with Sharpening Stone

Models:

AG-01	Satin Polish
AG-02	Black TiNi

Trident 2.0™

For those who are looking for the style of the SOG Bowie 2.0 in a stainless steel design, look no further than the Trident 2.0. Our Trident embodies the spirit of our most capable special forces unit, the Navy SEALs.

Trident 2.0 • S2B

Length:	11"
Blade:	6.4" x .240"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Satin Polish
Edge:	Straight
Weight:	11.2 oz.
Handle:	Micarta Washers
Comes with:	Leather Sheath with Sharpening Stone

TECH Bowie™

Based on the classic SOG Bowie that founded our company, but morphed into a top-notch work knife with the use of technology, modern materials, and a little class thrown in for good measure.

For starters all the metal parts are satin finished stainless steel and coated in SOG's proprietary Hardcased™ TiNi matte black coating. It looks incredible! Offset against this, the tactile Kraton rubber handle nods to tradition with the use of interspaced white washers. This has never been accomplished before and provides an unmistakable SOG look. The thick (.240") AUS-8 blade is topped off with a faceted tip that is a SOG signature and completes the total package.

SOG TECH Bowie

Length: 11"
Blade: 6.4" x .240"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Black TiNi or Satin
Edge: Straight
Weight: 11.2 oz.
Handle: Kraton Rubber
Comes with: Kydex Sheath

Models:

S10B Black TiNi Finish
S10P Satin Finish

The Creed™

One of the more dramatic blade shapes in the SOG arsenal, the Creed delivers on its promises of high-level performance. The very stout front end weights the knife forward for chopping and piercing. The big belly on the blade maximizes the cutting edge for extreme wilderness and hunting situations. Mated with the Tech Bowie handle to provide a confident grip in inclement weather. This is a great example of a collectable and working knife coming together.

The Creed • CD-01

Length: 12.125"
Blade: 7.5" x .240"
Steel: AUS-8 Stainless - Rc. 57-58
Finish: Satin Polish
Edge: Straight
Weight: 12.8 oz.
Handle: Kraton Rubber
Comes with: Leather Sheath

Reverse Collaboration is where a manufacturer works closely with a custom maker to produce a limited number of knives in the style of the manufacturer. This will provide a set of guaranteed orders for the custom maker while also elevating his stature in the cutlery world. The manufacturer also gains stature by working with the custom maker and can sell knives to markets and buyers that would not normally buy that makers products.

Kiku

Kiku

Length: 12.25"
Blade: 7.5" x .160"
Steel: OU-31 - Rc. 64
Finish: Polished
Edge: Straight
Weight: 21 oz.
Handle: Green Canvas Micarta
Comes with: Leather Sheath

When SOG inspiration meets master craftsmanship, a true work of art is born! Introducing the SOG KIKU, a "reverse collaboration" by custom knife maker Kikuo Matsuda of Kiku Knives. Inspired by the iconic SOG design, this limited edition blade will only be available in 100 pieces, 3 per month.

Featuring a mirror polished blade with double bevel lines and grinds, Green Canvas Micarta handle, and OU-31 steel. OU-31 steel It is a micro fine steel made by Nippon Koshuha Steel Co., Ltd. It features high hardness, HRc 64, and is 3 times tougher than that of D2.

Team Leader

Length: 10.25"
Blade: 5" x .160"
Steel: DuraTech 20CV - Rc. 60 or
AUS-8 Stainless - Rc. 56
Finish: Bead Blasted
Edge: Straight
Weight: 7.4 oz.
Handle: Zytel
Comes with: Leather Sheath

Models:

TL-01 DuraTech 20CV
TL-02 AUS-8

Team Leader™

'You can only lead from the front' is a favorite expression of ours. If you are one of those people who covet the ultimate ultimate... then we have a surprise for you. What you might not sense when you first pick up this work of art is how exotic the steel is. This is one of the first production knives to be manufactured from DuraTech™ 20CV, a powder metallurgy stainless tool steel. It contains a large volume of extremely hard vanadium carbides, which increase wear-resistance. How tough? Try 35% greater than S30V, a super steel in its own right.

The Team Leader is also available in AUS-8 stainless with saw back for a great combination of performance and price.

Fusion[®] by SOG

Fusion - the merging of several different elements, sometimes violently. Our new import brand melds technical excellence, ingenuity, and affordability to yield products with new properties distinctly different from the mainstream. "I hope you enjoy my latest ideas that chart new territory."
- Spencer Frazer

Muscle Car[™]

What is a theme knife? A distinct, recurring, and unifying quality or idea portrayed in a knife. We believe this is the first of its kind. High performance has always been a major theme at SOG so we are thrilled to introduce the Fusion Muscle Car knife with a "gentleman... start your engines" and we hope you will give it the checkered flag. Notice the attention to detail: the wheel that turns with the knife as well as a fan belt and pulley array... not to mention the exhaust pipe, racing stripes, hood latch thumbstud, spoilers, competition numbers, gear shifter clip, headlights, and license plate engraving, all of which are fun reminders of the muscle car era of past and present. These attributes don't minimize the heavy-duty lockback construction and razor sharp blade. And of course, use it without the fear of losing your driver's license.

No gas required!

Muscle Car • F05

Length: 7.25"
Blade: 3.125" x .120"
Steel: 440 Stainless - Rc. 54-56
Finish: Satin Polish
Edge: Straight

*Fan Belt and Pulley
Move When Opening the Blade*

*High-Output
Exhaust Pipe*

Contractor 2x4[™]

The Contractor 2x4 breaks ground with a whole different framework! One of the new breed of thematic knives originated by SOG (see Muscle Car above), this knife is no apprentice. Open or close the blade and see the circular saw turn or rotate the saw and open the blade. Whether you are a contractor, know a contractor, or wished that you didn't... the 2x4 will help on the job... whatever that might be. How many times have you wished to sharpen a pencil without having to walk back in the house? Or try and get that picture level without a level? Want to strip a wire real quick? No worries. Use the patent pending strippers in the handle. Oh yeah, if you ever need that one last lucky nail, we have that too! What to do to drive that nail home ...we can't help you there, at least not yet.

Contractor 2x4 • FF-01

Open: 7.5"
Blade: 3" x .125"
Steel: 8Cr13MoV Stainless - Rc. 52-54
Finish: Bead Blasted

Handle: Zytel
Comes with: Pocket Clip, Pencil Sharpener, Level, Wire Stripper, Lucky Nail

*Real Working
Bubble Level*

Pencil Sharpener

*Wire Stripper
in the Handle*

Fish On™

Fish On... a thematic interpretation of a working knife for fishing, boating, or general outdoor fun. Open the knife and hear the tell tale clicking of a reel letting out line on the "big one". The handle scales, fish clip, and swivel are all signatures of mans classic pursuit. The coloring of the handle is reminiscent of fishing lures. The Fish On won't guarantee that the fish will bite but is indispensable when they do.

Clicking Reel

Scale Texture Grip

Fish Pocket Clip

Fish On • FF-21

Open: 7.5"
Blade: 3" x .120"
Steel: 440A - Rc. 54-56
Finish: Satin Polish
Edge: Straight
Weight: 3.4 oz.
Handle: Zytel
Comes with: Reversible Fish Pocket Clip

Salute™

For our first Fusion tactical folder we wanted something that was progressive and performance driven. The Salute is an acknowledgment that great design can still be affordable with a little perseverance. Take the machined G10 handles in combination with scalloped full-length steel liners for a whole new look. Add a big lockback, smooth as silk operation, and a proven Bowie style blade. For good measure, throw in our new invention- a movable thumb stud so you can tailor the position to your own hands. We didn't forget to incorporate our trademark low carry bayonet clip either. The Salute lives up to its name and is worthy of carry on any front in the world... including your back yard.

Salute

Open: 8.25"
Blade: 3.625" x .120"
Steel: 8Cr13MoV Stainless
Rc. 52-54
Finish: Bead Blasted or Black Oxide
Edge: Straight
Weight: 4.2 oz.
Handle: G10
Comes with: Reversible Bayonet Pocket Clip

Models:

FF-10 Bead Blasted
FF-11 Black Oxide

Micron™

This tiny beauty is crafted from high quality stainless steel and designed to be carried on a key ring or stashed in your pocket. It's a SOG so you know the Micron is built to last and is going to be there when you need it.

Micron

Open: 3.375"
Blade: 1.5"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Straight
Weight: .5 oz.

Micron™ II

Slim line convenience, key chain ready, strong lockback mechanism, sophisticated tanto design, will hide in pocket and appear at whim.

Micron II • FF-91

Open: 5"
Blade: 2.25"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Straight
Weight: 1.4 oz.

Tactical Tomahawk[™]

Based on the Vietnam Tomahawk the Fusion Tactical Tomahawk is an extreme evolution of the original which was considered one of the more unusual weapons of its day. Today there is a real need for a versatile tool for breaching operations, excavation, obstacle removal, extraction, and other utility applications. The 420 stainless steel head with Hardcased coating is mounted to the ballistic polymer handle with heavy duty bolts and a steel ferrule to keep the handle from splitting. Side hammer checkering insures precise placement when pounding. Carried in a nylon sheath this is a universal tool for modern man.

Tactical Tomahawk • F01T

Overall Length: 15.75"
Head Length: 8.25"
Edge Length: 2.75"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Straight
Weight: 24 oz.
Handle: Ballistic Polymer
Comes with: Nylon Sheath

Battle Ax[™]

Our modern battle/throwing ax evokes its origins from medieval times, which some might consider to be the present. Whether used as a target ax, SWAT tool, universal back up, or hung above the fireplace; it is very effective. The pike in the back is upswept for better target penetration. Size and heft are balanced for optimum swing control. The handle is sculpted from heavy duty black Pakka wood and the entire solid blade is protected with SOG's Hardcased black coating. Nylon sheath included.

Battle Ax • F02T

Overall Length: 12.25"
Head Length: 7"
Edge Length: 3.75"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Straight
Weight: 20.2 oz.
Handle: Pakka Wood
Comes with: Nylon Sheath

Jungle Primitive[™]

For the primitive in all of us. When the only thing that separates you from them is your equipment, it better be good. Using SOG's Hardcased black coating, the Jungle Primitive is durable and comfortable with a molded Kraton handle that features Digi-Grip[™], a way to guarantee gripping power where you need it. One can instantly turn the Primitive into a small machete, limb saw, or hammer. Includes a Nylon sheath with utility pouch. Don't be caught alone!

Jungle Primitive • F03T

Length: 15.3"
Blade: 9.5"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Partially Serrated
Weight: 14.0 oz.
Handle: Kraton
Comes with: Nylon Sheath

Spirit™

The Spirit looks like a futuristic tribal spear taking off from "Area 51". Sleek and aerodynamic, it hides a secret... Unscrew the handle and use a broom handle* to complete the spear! In a survival situation, use a branch to make the spear shaft and tighten it with a nail or the provided setscrew. With the provided handle the Spirit can be thrown or used as a cutting tool. Do you have the spirit?

* The Spirit will fit on most common broom handles.

Spirit • FS-01

Length: 10.65"
Blade: 4.25"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Double Edged Straight
Weight: 10.0 oz.
Handle: Nylon
Comes with: Nylon Sheath

Throwing/Utility Knives

These stylized knives are not only fun to sail through the air, they are practical as well. Completely protected by SOG's Hardcased black coating, they are extremely scratch resistant. Their balance, aerodynamics, and proportions make them great throwing knives. For the same reasons they also make great back-up field knives. Wrap the handles with paracord or use as is and you have three knives for the price of one! Includes nylon sheath that safely carries all three.

Throwing/Utility Knives • F04T

Length: 10"
Blade: 4.375" x .135"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Straight
Weight: 5.3 oz. each
Handle: N/A
Comes with: Nylon Sheath

Fulcrum™ I & II

This new concept in throwing knives allows precise adjustment of the balance point for more accuracy and helps improve your technique! The Fulcrum knives are styled after traditional throwing knives and perfect for backyard competitions. Available in two sizes with black oxide coating. See who can hit the bull's eye first! Also, available in a 3 pack with out sheath.

Fusion Fulcrum I

Length: 9.5"
Blade: 1"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Straight
Weight: 7.4 oz.
Handle: N/A
Comes with: Nylon Sheath

Models:

FL-10 Single w/Sheath
FL-11 3 Pack w/o Sheath

Fusion Fulcrum II

Length: 12.4"
Blade: 1"
Steel: 420 Stainless
Finish: Black Oxide
Edge: Straight
Weight: 12.5 oz.
Handle: N/A
Comes with: Nylon Sheath

Models:

FL-20 Single w/Sheath
FL-21 3 Pack w/o Sheath

Revolver[™]

It isn't very often that a product can create a new category, but the Revolver does just that. We have pioneered a fixed blade with a new twist... actually a complete revolution. The Revolver's secret is simply twice the capability for the same size and weight. Utilizing patented technology developed by Robbie Roberson and Spencer Frazer, you can depress the locking lever and rotate the blade to transform the knife into a saw. It's so easy, so cool, that you'll wonder why it wasn't done a long time ago.

The Revolver comes standard with a new look in blade shape that is not only functional, but distinctive. A survival saw serves as a backup in the handle. The blade features a forward thumb rest for increased dexterity and downward pressure. A glass-reinforced Zytel handle hides the stainless steel liners which ensure strength and quality.

Whether you're camping or crusading, why not pack twice the capability with the Revolver? It just might transform your idea of what a knife should be.

Revolver Hunter • FX-20

Length: 10"
Blade/Saw: 4.75" x .150"
Steel: 440A Stainless - Rc. 56-58
Edge: Straight/ Double Tooth Saw
Handle: Glass-Reinforced Nylon
Weight: 6 oz.
Comes with: Nylon Sheath

Revolver SEAL • FX-21

Length: 10"
Blade/Saw: 4.75" x .150"
Steel: 440A Stainless - Rc. 56-58
Edge: 1/2 Serrated/ Double Tooth Saw
Handle: Glass-Reinforced Nylon
Weight: 6 oz.
Comes with: Nylon Sheath

SOG's Double Tooth Saw design is truly cutting edge! The alternating tooth design allows the saw to grip while at the same time reducing friction for optimal performance. No outdoorsman should go into the wild without it!

Fixation[™]

Among other things, SOG has a reputation for producing some of the finest production fixed blades in the world. Now we have developed along with military consultants an even more economical choice with the Fixation series. Seamless fits between blade and cross guard, wrap-around checkered handles, blade grooves, thumb notches, spanner nuts, and crossguard cutouts all say this knife is as distinctive as you are. Great balance and proportion make these knives very agile. Let our fixation become yours!

Fixation Bowie • FX-01

Length: 12.25"
Blade: 7"
Steel: 8Cr13MoV Stainless
Finish: Black Oxide
Edge: Straight
Weight: 10.5 oz.
Handle: Kraton
Comes with: Nylon Sheath

Fixation Dagger • FX-10

Length: 11.875"
Blade: 6.675"
Steel: 8Cr13MoV Stainless
Finish: Black Oxide
Edge: Straight/Serrated
Weight: 8.3 oz.
Handle: Kraton
Comes with: Nylon Sheath

Clamshell Packaging

A wide variety of SOG products are available in our handsome clamshell packaging. This powerful packaging will be instantly recognized wherever it is placed.

Laser Engraving

SOG has a complete laser engraving department. All of our products can be engraved with your slogan or company logo. Call the SOG sales department for more details

Warranty

SOG Warranty Information

All SOG products are guaranteed against defects in workmanship and materials for the life of the original purchaser. This guarantee is voided (as determined by SOG) by misuse, abuse, improper maintenance, or alterations of the product and does not cover any normal wear or tear that might occur.

Fusion Warranty Information

All Fusion products are guaranteed against defects in workmanship and materials for one year from date of purchase. This guarantee is voided (as determined by SOG) by misuse, abuse, improper maintenance, or alterations of the product and does not cover any normal wear and tear that may occur. Should you encounter a problem with a Fusion product, please send it directly to SOG Specialty Knives with a copy of the original receipt. Please keep the original receipt for your records, as copies sent with warranty claims will not be returned.

NO receipt, NO warranty, NO exceptions.

All guarantee claims should be directed to the factory. U.S. claims should be sent prepaid and insured. For international claims: call, write, or email SOG's Warranty Dept. for information.

We are not responsible for lost or stolen packages that do not arrive to our facility.

SOG reserves the right to the repair or replacement of a product at our discretion. Products that are discontinued and not repairable will be returned as-is with a gift certificate of similar value, as determined by SOG, which can be used for a future purchase.

Examples of Non-Warranted items:

Rusted/spotted/stained blades or handles (coated or not), broken or bent knife tips, worn tool components, dull/chipped knife blades, scratched blade/tool coatings, worn/loose Kraton slabs, sheaths and pouches (if brand new sheaths are determined to be defective they are replaced separately from the knife/tool), and broken/lost thumb studs.

SOG Unconditional Pocket Clip Warranty:

Pocket clips can be broken if they are accidentally caught on foreign objects while wearing. To help prevent such occurrences, SOG recommends that you wear your knife in your front pocket, with the knife inside your pocket. If, for whatever reason, your clip bends or breaks and you would like to receive a replacement, email or call SOG's warranty department. Damage to a knife handle because a clip has snagged is not considered "normal," and any such damage will be assessed under warranty.

Sharpening:

SOG offers a sharpening service for our products at the minimal charge of \$9.00.

Broken Blades:

In the unlikely case that your knife blade breaks, we will do a hardness test on it to see if it is within specs and therefore eligible for replacement.

Costs:

SOG will pre-determine the cost of repair or replacement of non-warranted items and communicate the estimated cost to the customer before any work is performed.

When returning product for warranty/replacement please do the following:

Include a brief note inside your package stating what you are returning, the claimed defect and how it failed. Also, include inside the package, your name, address, and a daytime phone number or email address to reach you in case we have any questions.

Send all warranty claims to:
