

SOG[®]

Specialty Knives & Tools

PRODUCT CATALOG 2010

“Extraordinary Knives and Tools...”

Since 1986, we’ve been creating the strongest most innovative multi-tools and knives on the market. We don’t settle for the ordinary, we never have and we never will.

The human eye can distinguish the essential from the non-essential, the aimful from the arbitrary. The beauty of a SOG designed product is in its purpose.

Some manufacturers simply produce knives and tools. At SOG we create style and substance through craftsmanship. Our purpose is to combine advance technology, imaginative designs, and quality construction to create products of the highest caliber - products that enhance your life. This is the philosophy that you share with us, each time you choose a SOG product.

PROFESSIONAL PRODUCTS FOR:

SOG... our name means different things to different people.

To a soldier, backpacker, police officer, tradesman, paramedic, outdoorsman... It means innovation, precision, dependability, confidence, honor, convenience, cool.

What will it mean to you?

Since the beginning, our primary goal has been to create great products... Products that are innovative, products that create value, products that enhance your life. We were one of the first companies to bring a modern sensibility and style to what was a very traditional industry. Since that time, SOG has been on the forefront of technology with a commitment to build specialty knives and tools... especially for you. Experience the innovative world of SOG and feel the difference!

Spencer Frazer
SOG Founder & Chief Designer

VISION

SOG strives to be the creators of the most distinctive gear - gear made especially for adventurous people who like to “live on the edge”.

MISSION

SOG’s mission is to design and create gear of the highest quality, distinction and value that delivers what consumers need - and in doing so, always defining the leading edge of technology.

VALUES

Pride. *delight or elation arising from some act, possession, or relationship*
At SOG, we have pride in our products and in the way in which we conduct business with our customers, co-workers, and consumers.

Innovation. *a creation (a new device or process) resulting from study and experimentation*
At SOG, we leverage our innovation as a competitive advantage by creating and manufacturing products that meet consumer needs better than the competition.

Passion. *intense, driving, or overmastering feeling or conviction*
At SOG, we are passionate about using leading edge technology to create the best products to meet and exceed consumer and customer expectations.

Creativity. *the ability to produce through imaginative skill*
At SOG, we use our creativity to produce results - from developing products, to improving processes, to delivering our message to both customers and consumers.

Integrity. *firm adherence to a code of especially moral or artistic values*
At SOG, we always try to do the right thing - for our consumers, our customers, our co-workers, and the global community.

Accountability. *an obligation or willingness to accept responsibility for or to keep track of one’s own actions*
At SOG, we mean what we say... we do what we say... and we take responsibility for our actions.

Leadership. *the art of motivating a group of people to act towards achieving a common goal*
At SOG, we are all leaders in our area of responsibility and we are deeply committed to delivering continuous improvements with a focus on results.

Sustainability. *of, relating to, or being a method of harvesting or using a resource so that the resource is not depleted or permanently damaged*
At SOG, we seek to preserve the environment by using recycled/recyclable materials and minimizing waste in all that we do.

SOG AMBASSADOR

Gunny

What does it mean to be “Gunny Approved”?

It means you’ve met the demanding specifications of a man who served 11 years active duty with the U.S. Marine Corps, rising to the rank of staff NCO, including two years as a drill instructor and a tour and a half of duty in Vietnam.

It means you’ve earned a reputation for authenticity and toughness consistent with one of the most recognized actors in America today, the star of History Channel’s “Lock N’ Load With R. Lee Ermey” as well as more than sixty theatrical films including “Apocalypse Now” and “Full Metal Jacket.”

It means that you’ve earned the trust of someone who really is a true American, an advocate on behalf of the Marines, including serving as National Spokesperson for the Young Marines, and an avid supporter of a number of other military and law enforcement charitable activities, as well as being an enthusiast and a premier collector of knives and tools.

SOG Specialty Knives and Tools is proud to be “Gunny Approved” and is looking forward to working with the Gunny in 2010 and beyond in an extensive advertising, promotion and publicity program, leading up to the introduction of a special edition line of knives and tools developed in conjunction with this American icon.

SOG AMBASSADOR

Mike Iaconelli

Never give up! The best tools are coming – The SOG Angler Series From Mike Iaconelli. It’s the catch you been waiting for.

*tools that
never gives up

TEAM SOG

Extreme Tools for Extreme Athletes

“For a brand like SOG Specialty Knives and Tools, which is devoted to the highest-quality gear that can be depended upon in the harshest of conditions, affiliation with endurance athletes such as those that compete in adventure racing is crucial,” says Spencer Frazer, SOG Founder & Chief Designer. “Participants and fans of adventure racing know the degree to which these athletes depend on their gear. They wouldn’t affiliate with a sponsor if their products did not meet their standards. It provides important confirmation of our product’s quality and of our understanding as to what the needs of such athletes are. It greatly helps enhance the image of authenticity that we enjoy.”

SOG is now The Official Knife of the United States Adventure Racing Association (USARA)

WARRANTY

SOG Warranty Information:

All SOG products are guaranteed against defects in workmanship and materials for the life of the original purchaser. This guarantee is voided (as determined by SOG) by misuse, abuse, improper maintenance, or alterations of the product and does not cover any normal wear or tear that might occur.

We are not responsible for lost or stolen packages that do not arrive to our facility.

SOG reserves the right to the repair or replacement of a product at our discretion. Products that are discontinued and not repairable will be returned as-is with a gift certificate of similar value, as determined by SOG, which can be used for a future purchase.

Examples of Non-Warranted items:

Rusted/spotted/stained blades or handles (coated or not), broken or bent knife tips, worn tool components, dull/chipped knife blades, scratched blade/tool coatings, worn/loose Kraton slabs, sheaths and pouches (if brand new sheaths are determined to be defective they are replaced separately from the knife/tool), and broken/lost thumb studs.

SOG Unconditional Pocket Clip Warranty:

Pocket clips can be broken if they are accidentally caught on foreign objects while wearing. To help prevent such occurrences, SOG recommends that you wear your knife in your front pocket, with the knife inside your pocket. If, for whatever reason, your clip bends or breaks and you would like to receive a replacement, email or call SOG's warranty department. Damage to a knife handle because a clip has snagged is not considered "normal," and any such damage will be assessed under warranty.

Sharpening:

SOG offers a sharpening service for our products at the minimal charge of \$9.00.

Broken Blades:

In the unlikely case that your knife blade breaks, we will do a hardness test on it to see if it is within specs and therefore eligible for replacement.

Costs:

SOG will pre-determine the cost of repair or replacement of non-warranted items and communicate the estimated cost to the customer before any work is performed.

When returning product for warranty/replacement please do the following:

Include a brief note inside your package stating what you are returning, the claimed defect and how it failed. Also, include inside the package, your name, address, and a daytime phone number or email address to reach you in case we have any questions.

Send all warranty claims to:

SOG Specialty Knives and Tools, LLC
Attn: Warranty Dept.
6521 212th St. SW
Lynnwood, WA 98036
USA

For any other questions, either call, fax, or email SOG's warranty department at:

Phone: 425-771-6230 ext. 229
Toll Free: 1-888-40-KNIFE (405-6433)
Fax: 425-771-7689
Email: warranty@sogknives.com

SOG Specialty Knives and Tools, LLC reserves the right to change specifications, prices, and information without notice.

DISPLAYS

SOG point-of-purchase displays are some of the best-designed in the industry. With several different display options, you can showcase SOG products at their best. Choices include a knife/tool or knife only truck mounted display, and a combination knife and tool counter model.

LASER ENGRAVING

SOG has a complete laser engraving department. All of our products can be engraved with your slogan or company logo. Call the SOG sales department for more details.

POWERASSIST®

SOG makes the only multi-tools in the world with one-handed flip opening and gear driven patented Compound Leverage for double the plier power... the PowerAssist takes these principles to a new level. This is the first multi-tool in the world that houses not just one but two assisted opening blades. Start to open the main blades, which are available when the tool is closed, and S.A.T. (SOG Assisted Technology) takes over to complete the opening. When not in use, blades lock closed using our patent pending side release. It's never been easier! Flip open the tool and experience the precision of the heavy-duty plier capability and large wire cutters. Smooth handle surfaces promote comfort on even the toughest jobs. Also includes the gear covers, hex bolt construction, V-Cutter, and built-in crimpers. When it comes to tough... Look to SOG!

PowerAssist - S66	
Closed:	7.125"
Open:	4.675"
Weight:	9.3 oz.
Head Type:	Needle Nose
Steel:	Stainless
Finish:	Polished
Sheath:	Nylon
Components: pliers/gripper, hard wire cutter, crimper, straight edge blade, fully serrated blade, 3-sided file, large screwdriver, Phillips screwdriver, can opener/small screwdriver, bottle opener/medium screwdriver, scissors, rulers, and lanyard ring. EOD version available with fuse well spike in place of Phillips screwdriver, file and bottle opener/medium screwdriver.	

SOG TECHNOLOGY

Compound Leverage®

Compound Leverage has become a SOG patented trademark for folding tools. With the same hand pressure you will generate twice the wire cutting and gripping power than all other conventional designs. Don't believe us? Use the wire cutter on one of our Compound Leverage multi-tools to cut some hard wire and feel the smooth power. Then do the same with someone else's multi-tool... and try not to bust your hand.

- B69 EOD 2.0 Black Oxide w/Fuse Well Spike

POWERLOCK®

As one of the original multi-tool manufacturers, we have learned quite a bit over the years. Like how to make the toughest tools with patented gear driven compound leverage mechanisms. You have let us know, that quick access is a must. Just flip our tools out with one hand and see for yourself how well we listened. Versatility in the field is a necessity and hex bolt construction provides access. There is also a myriad of features that you might not readily see, like our saws cut faster and our files shave better. Does all this make sense? You bet, which is why leading military forces choose SOG!

PowerLock - S60	
Closed:	4.6"
Open:	7"
Weight:	9.6 oz.
Comes With:	Nylon Pouch
Weight:	4.5 oz.
Option:	Leather or MOLLE Pouch
Components: pliers/gripper, hard wire cutter, crimper, double toothed wood saw, 1/2 serrated blade, 3-sided file, large screwdriver, Phillips screwdriver, 1/4" drive, awl, can opener/small screwdriver, bottle opener/medium screwdriver, scissors, rulers, and lanyard ring. New EOD version available with fuse well spike.	

The patent pending V-Cutter in SOG tools opens up possibilities. Whether cutting seat belt, paracord, fishing line, zipping electrical cable sheathing, opening packages or stripping wire, the V-Cutter performs at a higher level, guaranteed!

Gear Covers provide a new sense of hand comfort, especially when using the screwdriver components.

MODELS

- S31 Standard (shown)
- B31 Black Oxide

PARATOOL®

The Paratool is the only multi-tool with a multiple angled plier head capability. The unique, patented way the Paratool opens allows for the ability to operate at a variety of angles (140°-180°), indispensable in tight spots. The comfort grip handles are smooth on the outside and feature SOG's classic ventilation holes for maximum gripping. Be prepared with the Paratool.

Paratool - S31	
Closed:	4.3"
Open:	6.4"
Weight:	6.2 oz.
Comes With:	Nylon Pouch
Components: pliers/gripper, wire cutter, serrated blade, straight blade, 3-sided file, large screwdriver, Phillips screwdriver, awl, can opener/sm. screwdriver, bottle opener /med screwdriver, rulers, and lanyard ring (optional saw or serrated line cutter).	

MODELS

MICRO TOOLCLIP™

The newest member of our tool family - this collection of small pocket tools is functional fashion. The Micro ToolClip is a formidable compact plier - it has the precision to cut paper, the power to cut wire and the determination to grip screws. It does it all with a spring return. The blade and tool components, knife blade, two screwdrivers, and a file, will surely come in handy many times a day. Carry it in your purse, pocket, briefcase or clipped to a jacket. Micro ToolClip... it's bigger than you think.

Micro ToolClip	
Length:	3.75"
Weight:	3 oz.
Handle:	Zytel
Colors:	Green, Blue, Pink, Black
Components: Pliers, Wire Cutter, File, 2 Screwdrivers, Phillips Screwdriver, Bottle Opener, Straight Edge Blade	

MODELS

- S44 Standard (shown)
- S45 Deluxe - add 1/4" Drive and Substitute Large screwdriver for Awl

POCKET POWERPLIER™

Our quick deployment P3 is lighter, sleeker, and just as durable as our larger tools. Who says that great things don't come in smaller packages? We managed to downsize the same power and durability while maintaining the key features of compound leverage, one hand flip opening, and hex bolt construction. It's a smart choice for those on the go.

SOG tools are the fastest deploying with one-handed flip opening.

MODELS

- S69 EOD 2.0 w/Fuse Well Spike
- B69 EOD 2.0 Black Oxide w/Fuse Well Spike

EOD POWERLOCK™ 2.0

SOG's EOD multi-tools feature the only Compound Leverage blasting cap crimper, making crimping so much easier. Unlike all other designs, the crimper jaws are mounted on the opposite side of the plier head, inside the handles, allowing for an uninterrupted plier jaw and minimizing crimper/plier breakage.

Pocket PowerPlier - S44	
Closed:	4"
Open:	6"
Weight:	5.5 oz.
Comes With:	Nylon Pouch
Option:	Leather Pouch
Components: pliers/gripper, wire cutter, 1/2 serrated blade, 3-sided file, Phillips screwdriver, awl, can opener/small screwdriver, bottle opener/medium screwdriver, rulers, and lanyard ring.	

EOD PowerLock 2.0	
Closed:	4.6"
Open:	7"
Weight:	9.6 oz.
Comes With:	Nylon Pouch
Option:	Leather or MOLLE Pouch
Components: pliers/gripper, hard wire cutter, crimper, 1/2 serrated blade, 3-sided file, large screwdriver, Phillips screwdriver, awl, can opener/small screwdriver, bottle opener/medium screwdriver, rulers, lanyard ring, and new C-4 spike.	

Aegis	
Length:	8.25"
Blade:	3.5" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi or Satin Polish
Edge:	Straight or 1/2 Serrated
Weight:	3.1 oz.
Handle:	Zytel with Kraton Inserts
Comes With:	Reversible Bayonet Pocket Clip

AEGIS™

Aegis (ee-jis), which in Greek means shield or protection, is also the code name for the world's premier integrated air defense system and the sea-based element of the United States Ballistic Missile Defense System. It is the only operational radar and weapon system capable of simultaneous warfare against air, surface, subsurface and land targets.

Our comprehensive Aegis line of premier folders is fully integrated with top end systems. Take the new modified arc actuated piston locks that enable and support several blade configurations. Start to open the knife, and let Aegis finish the action with a bang, using one of the surest assisted technologies (S.A.T.) out there! Our trademark bayonet reversible clip, built in safety with red/ready to go, checkered DigiGrip™ handles, and tacky rubber inserts all contribute to make Aegis a platform for today's changing world. Cover your back with Aegis outdoor or tactical blades.

MODELS

- AE-07 Digi Camo Black TiNi Tanto Serrated

SOG TECHNOLOGY

S.A.T.™ (SOG Assisted Technology)

The magic of S.A.T. is accomplished with a simple and patented principle. There is a constant force to open a blade and a variable force that wants to close the blade. As one opens the blade the force to propel the knife open becomes greater than the closing force and the blade will open on its own. "The beauty of this is that we have come up with several mechanisms to accomplish this," says Spencer. The Flash and SOG Trident knives use a piston lock, the Blink uses a lockback, and the Twitch knives use a lockback with a pass-through lockbar. These are just a few of the mechanisms that we are working on that are covered under multiple patents. Most of the opening springs we are using are high-tension coil springs. These springs work through the entire range of opening (180 degrees) insuring reliability and long life. S.A.T. allows us to use locking mechanisms that are stronger and more reliable than the conventional liner locks and that are easier and safer to use. This is definitely one of the pluses of S.A.T., since a knife is only as good as its lock. Also, our locks are much easier to access ambidextrously (we haven't forgotten about you lefties!).

TRIDENT™

Trident	
Length:	8.5"
Blade:	3.75" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight or 1/2 Serrated
Weight:	3.6 oz.
Handle:	Zytel
Finish:	Satin/Black TiNi
Comes With:	Reversible Bayonet Pocket Clip

MODELS

- TF-1 1/2 Serrated Black TiNi
- TF-2 Straight Edge Satin Polish
- TF-3 1/2 Serrated Tiger-Stripe Blade (shown)
- TF-5 1/2 Serrated Desert Camo
- TF-6 Tanto Straight Edge Satin Polish
- TF-7 Tanto Straight Edge Black TiNi
- TF-10 1/2 Serr. Black TiNi Digi Camo
- TF-11 Tanto Str. Edge Black TiNi Digi Camo

Our mission was to create an updated SOG folding knife based on historical proven design but launched from a platform of new technology. Somehow, when you see it, you immediately know it is a SOG. When you use it, you definitely know it is a SOG. At a casual glance it has elements of our original SOG Bowie, Tomcat, SEAL Pup, Flash, etc. Upon a closer look, it has features never before put into a knife.

The Trident uses our well-proven means of delivering a knife blade to the open position with S.A.T. Now using our patent pending Arc-Actuator™, the Trident locks stronger and releases easier. There is also a built-in safety to lock the blade closed. When it shows red, you are ready to go.

What also makes the Trident so unique is the patented Groove™ in the handle, which allows the operator to cut paracord, fishing line, etcetera without having to open the blade.

The Trident's blade is an evolution as well. Taking key elements from previous blade shapes created a distinct hybrid of form and function.

Check out the introduction of a whole new tactile handle concept called Digi-Grip™. With this variable patterning, we can create a coarser grip in areas that require it. Aggressive touch point scallops on key areas of the perimeter complete the look. You will also appreciate the thought behind our bayonet style clip, which is easily switched for right/left hand carry or removed for pouch storage.

The Trident embodies the spirit of elite special forces throughout the world. The only thing that it doesn't come with is testosterone... you have to supply that.

FIELDER™

Fielder	
Length:	7.8"
Blade:	4.5" x .089"
Steel:	7Cr13 Stainless - Rc. 56-57
Finish:	Polished
Edge:	Straight
Weight:	4.4 oz
Handle:	Stainless Steel/ Wood
Comes With:	Pocket Clip

MODELS

- FF-30 Non-Assisted
- FF-31 Assisted (shown)

Take the kernel of SOG Assisted Technology (S.A.T.), implant it in a new affordable platform, and you have the start of the new Fielder series. The contrast of the vertical grain wood against the high luster bolsters creates a very appealing visual tension. This is a knife that is comfortable as a daily carry or out in the wilds. Start to open the blade and S.A.T. does the rest of the work for you. Our proven lockback system provides reliability as well as an ambidextrous opening of the Fielder's capable blade. The Fielder will catch your eye, but not your pocket book.

Twitch I - TWI-7

Twitch II - TWI-8

Twitch - TWI-7, TWI-8	
Open:	4.75", 6.2"
Blade:	2.0" x .100", 2.68" x .100"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight
Weight:	2.0 oz., 2.6 oz.
Handle:	Hard-Anodized 6061-T6 Machined Aluminum
Finish:	Satin
Comes With:	Money/Pocket Clip

TWITCH™ I, II 🔥❄️

Looking at the intricate construction of the Twitches reminds us of the workings in a fine chronograph watch... everything right and precisely in its place. These techno wizards feature a pass-through lockbar (patent pending) from which the “kick” of the blade sticks through. By pressing on the “kick”, one is able to initiate the opening of the blade. SOG Assisted Technology (S.A.T.) then takes over to finish opening and to securely lock the blade open. What makes these space-age little gems even more beautiful is that they are also affordable!

Twitch XL	
Open:	7.5"
Blade:	3.25" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight
Weight:	4.2 oz.
Handle:	Hard-Anodized Aluminum
Finish:	Satin Polish or Black TiNi
Comes With:	Reversible Bayonet Pocket Clip

TWITCH XL™ 🔥❄️

The XL is classy... it moves well, looks right, walks the walk, and talks the talk. It is not just a larger version of a Twitch. It is serious business that can more than get the job done. This is a high-tech statement of sophistication with all the bells and whistles that you expect from the designers at SOG. The fine construction comes together to make the XL one of the most practical and beautiful knives that we have ever handled.

MODELS	
TWI-20	Graphite Handle
TWI-21	Black Handle w/ Black TiNi Blade, Pocket Clip (shown)
TWI-20I	Tanto with Graphite Handle
TWI-21I	Tanto w/Black Handle and Black TiNi Blade

Blink - BBA-99	
Open:	5.37"
Blade:	2.25" x .100"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight
Weight:	2.1 oz.
Handle:	Hard-Anodized 6061-T6 Machined Aluminum
Finish:	Satin
Comes With:	Money/Pocket Clip

BLINK™ 🔥❄️

Blink... and you just might miss it. This robust little knife cuts with the ‘big boys’ and features a reversible low carry clip. At its well-mannered price, the Blink is the gentleman’s knife with a naughty attitude.

Topo Meridian	
Open:	7.25"
Blade:	3.25" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight
Weight:	4.5 oz.
Handle:	Layered Machined Aluminum/Zytel
Finish:	Satin Polish/Black TiNi
Comes With:	Money/Pocket Clip

TOPO MERIDIAN™

The Topo Meridian is perhaps the wildest design that we have ever seen and definitely one of the coolest. Featuring patented S.A.T. (SOG Assisted Technology), pass through lock bar with blade kick activation, engineered built in safety that locks closed and double locks open. Upswept blade maximizes cutting edge length, and an ambidextrous design with wave-like grip SOG continues to delight with innovation and forward thinking to bring you products that make you.

MODELS	
M46T	Black TiNi (shown)
M46	Satin Polish

Flash I, II	
Length:	5.75", 8"
Blade:	2.5" x .090", 3.5" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Edge:	Straight or 1/2 Serrated
Weight:	1.3 oz., 3.1 oz.
Handle:	Zytel
Finish:	Satin/Black TiNi
Comes With:	Reversible Bayonet Pocket Clip

FLASH™ I, II

The Flash has got to be one of the coolest knives we've ever seen. Forget its wicked-quick blade access, that it handles like a race car on rails, or that it locks up like Alcatraz. It just looks and feels extraordinary. The Flash family of knives feature SOG Assisted Technology (S.A.T.), which employs a powerful piston lock that is easily released with the new Arc-Actuator on the Flash II. We also had the foresight to incorporate an additional safety lock that gives added security when the blade is closed. Note that when the safety shows red... YOU ARE READY TO GO!

The Flash comes standard with glass-reinforced Zytel® handles and 1/2 serrated blades. Options include straight edge blade, black TiNi 1/2 serrated blade/clips/hardware. All Flashes come standard with SOG's patent pending, reversible bayonet mounted clip that ensures the lowest, most discreet carry possible.

FLASH I MODELS

FSA-5	1/2 Serrated, TigerStripe with Black TiNi Pocket Clip and Hardware
DFSA-98	1/2 Serrated, Digi Camo Handle, Black TiNi Blade, Pocket Clip and Hardware

SOG-TAC™ AUTOMATIC

Our customers have been asking for us to produce a tactical switchblade for years. But we waited... because we wanted to do something really special. The SOG-TAC is an invigorating new design that looks like nothing else. It is big, but relatively slim, and specifically tailored to the professional. Blade travel is definitely fast and once open it locks up like a floor safe. Includes: A safety button that double locks the blade in the open/closed position, our reversible bayonet style clip and an aggressive upswept blade. We think it was well worth the wait!

SOG-TAC Automatic	
Length:	8"
Blade:	3.5" x .125"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi or Satin Polish
Edge:	Straight or 1/2 Serrated
Weight:	3.8 oz.
Handle:	Hard Anodized Aluminum
Comes With:	Reversible Bayonet Pocket Clip

Comes With:	Reversible Bayonet Pocket Clip

SOG TECHNOLOGY

Cryogenic Heat Treatment

SOG's unique cryogenic heat treatment process increases the toughness and wear resistance of our blades. We take the knife slowly down in temperature to less than -300° F and then back to room temperature. This stress relieves the material on an atomic level and increases overall strength as well as edge retention. Knife edges stay sharp longer with significantly less micro-fracturing and edge-chipping. It's this dedication to making your knife SOG sharp that sets us apart from the rest.

Look for the Cryogenic Heat Treated logo on selected SOG Knives that have undergone this state of the art process.

Vulcan - VL-01

Vulcan VL-01, VL-02	
Length:	8.375", 7.35"
Blade:	3.5" x .160", 3" x .125"
Steel:	VG-10 Stainless - Rc 59-60
Finish:	Satin Polish
Edge:	Straight
Weight:	5.0 oz, 3.4 oz.
Handle:	Zytel with Stainless Liners

VULCAN™

In the world of firepower, the General Electric M61A1 Vulcan is top dog with its 6-barrel 20mm cannon of the Gatling-type. It fires standard M50 ammunition at 6,000 rounds per minute and is an integral part of the armament of modern fighters such as the F-15, F-16 and F-18. Our Vulcan series is just as formidable, thanks to the muscular construction. Take our patented Arc-Lock tested to over 1000 pounds of force at the lock. Or the full steel liners encased in glass reinforced Zytel handles. The thick VG-10 with spear point shape includes our new kick deployment system. Press on the back of the blade and the knife comes out fast. Real fast! Reversible clip, Arc-Lock, and double thumb studs make the Vulcan great for full ambidextrous use. The Vulcan... It's no wimp.

See Vulcan Fixed blade on page 32.

Vulcan - VL-02

SOG TECHNOLOGY

The SOG Arc-Lock™

The patented Arc-Lock just might be the perfect lock. Why? It is totally ambidextrous and has all of the attributes knife designers relentlessly search for, but rarely find. Strength: The Arc-Lock far surpasses conventional lock strength, tested at over 1000 pounds of force measured at the lock in an independent lab test. Speed: The Arc-Lock provides lightning-quick, one-handed opening and closing capability. Safety: Spring-action securely retains the blade closed. When unlocking, the fingers are safely kept clear. Durability: The Arc-Lock is self-adjusting over time and can be easily cleaned for long term optimal performance.

BLUTO™

The muscular stance and bulging form belay a quiet confidence. This little guy has its own point of view and the strength to back it up. With a very innovative textured machined aluminum handle, the Bluto handles well. Its VG-10 blade, Arc-Lock, and hardened scalloped steel liners make a rock solid package. The sweeping blade style is modern and functional and unique to the SOG line. Flex a new look with the Bluto.

Visionary - VS-01, VS-02	
Open:	7", 8.37"
Blade:	3.0" x .120", 3.75" x .125"
Steel:	VG-10 Stainless - Rc. 59-60
Finish:	Black Powder Coated
Edge:	Straight
Weight:	3.0 oz., 4.3 oz.
Handle:	Zytel with Stainless Liners
Comes With:	Reversible Pocket Clip

VISIONARY™ I & II

Visionaries are leaders because they dare to see beyond the present. We think that this new expansion on the Vision series will captivate you with its sense of style and performance. ‘Practical tactical’ is a phrase that we coined to designate tactical knives that you can use everyday. Although many of the SOG line of products fit this bill, the Visionaries seem to be the perfect embodiment.

Visionary knives keep a quiet profile with their non-reflective black powder coat finish and SOG’s trademark low carry pocket clip. Ambidextrous Arc Lock and clip, woven texture Zytel glass reinforced handle, and VG-10 blade make a compelling package. Handle the Visionaries and tell us what you see.

Vision, X-Ray Vision	
Open:	8.37"
Blade:	3.75" x .125"
Steel:	VG-10 Stainless - Rc. 59-60
Finish:	Satin Polish, Bead Blasted
Edge:	1/2 Serrated
Weight:	5.7 oz., 4.3 oz.
Handle:	Titanium w Stainless Liners, Zytel w/ Stainless Liners
Comes With:	Reversible Bayonet Pocket Clip

VISION™

Rotating out of a space-age titanium handle is the radical blade of the award-winning Vision. The geometric grind lines focus power on the edge and tip of the polished VG-10 blade. Completely corrosion proof, the titanium handle is lightweight like aluminum, but as strong as steel. Other features include SOG’s Arc-Lock, dual thumb studs, and our trademark reversible bayonet clip.

X-RAY VISION™

The X-Ray Vision, with its finely textured black Zytel handle and bead-blasted blade finish, is designed not only for performance, but also for value.

Access Card	
Open:	6.2"
Blade:	2.75" x .080"
Steel:	VG-10 Stainless - Rc. 59-60
Finish:	Satin Polish or Black
Edge:	Straight
Weight:	1.8 oz.
Handle:	Stainless Steel
Comes With:	Low Carry Pocket Clip

ACCESS CARD™

The Access Card 2.0 doesn’t grant admission into top-secret facilities, but it does give a sense of security. This minimalistic sliver of a knife (3/16” thick without the clip) won’t take up much room in your wallet, pocket, attached to a ballistic vest, or around your neck. The 2.75” formidable VG-10 blade opens and closes with one hand like a magic trick and locks up with our famous Arc-Lock. Although every bit of excess weight has been engineered out of the Access Card, you will be surprised at the power that it conveys.

Weight:	3.0 oz.
Handle:	Zytel with Stainless Liners
Comes With:	Reversible Bayonet Pocket Clip

MINI X-RAY VISION™

The SOG Mini X-Ray features the same award-winning, VG-10 steel blade as the original X-Ray Vision, but is almost an inch shorter. The end result... a great blade in a small package! People with big and small hands will find the Mini X-Ray a pleasure to hold and carry. It has a finely textured Zytel handle that is both lightweight and ergonomic. Its ideal three-inch blade with partially serrated edge opens quickly and smoothly via SOG’s Arc-Lock. The Arc-Lock offers superior strength, speed, and ambidexterity.

Tomcat 3.0	
Open:	8.65"
Blade:	3.75" x .160"
Steel:	VG-10 Stainless - Rc. 59-60
Finish:	Satin Polish
Edge:	Straight
Weight:	6.5 oz.
Handle:	Kraton Handle w/ Stainless Bolsters
Comes With:	Nylon Carry Pouch

TOMCAT™ 3.0

Using our existing Tomcat handle, which is the third generation of the first SOG folding production knife, the LTD uses a technology that has previously been found only in custom knives. The VG-10 blade is painstakingly laminated with carbon fiber, the same material that aerospace had developed for the Stealth Bomber, to make a composite construction. The one sided tanto grind (Kataba) is visually unique and super sharp.

Edge:	Straight
Weight:	8.5 oz.
Handle:	Titanium Bolster and Liner w/Kraton Handle
Comes With:	Nylon Carry Pouch

FATCAT™

The Fatcat is like our Tomcat after exposure to high levels of radiation. Our largest and most massive folder that we have ever produced, the Fatcat is not intended for the main stream. It is designed to be exceptional with never before seen details such as a dual tone TiNi coated blade. Anyone who picks up this knife is amazed at the lightness and quickness, which is attributed to the solid machined Titanium handle. Once started, the gigantic VG-10 blade effortlessly spins open and locks up with one of the world's greatest locks- the Arc-Lock. We have made a statement with the Fatcat... Are you ready to do the same?

Arcitech	
Open:	8"
Blade:	3.5" x .125"
Steel:	san mai (VG 10 Core Laminated with 420J2 Stainless)
Finish:	Polished
Edge:	Straight
Weight:	4.5 oz.
Handle:	Jigged Bone or Carbon Fiber w/Polished Titanium Bolsters and Liners
Comes With:	Jewelry Bag

ARCITECH™

To create, a truly unique experience and first for SOG we started with one of our finest knives, the Arcitech. Then we procured a stunning Japanese san mai Damascus that uses a core of VG-10 and 15 layers of Nickel and stainless steel on either side. The steel is forged and folded again and again to produce this striking pattern. Then finally the knife is acid etched to bring the pattern up clearly (carbon and nickel become black).

STINGRAY 2.0™

This is an evolution of the original Stingray, which helped bring in a new age of modern pocketknives and was just retired after more than 15 years of service. The Stingray 2.0 is the next era! It is a stout little rascal that reflects the thick blade stock of the original but enhanced with our unique san mai steel. These beautiful pocket sculptures feature inlays, polished stainless steel handles, patented Arc-Lock, and stunning mother of pearl thumb studs. Despite it's sleek and smooth exterior, the Stingray is still SOG tough on the inside, guaranteeing you will have the answer to many of life's situations at your fingertips.

SOGZILLA™

In devising this line that includes several sizes and blade shapes we wanted to make the Zilla distinctive. Zilla is fast, you wouldn't want to try and outrun him! The grip is a dual directional prehistoric armor plate and the big bodied blade features a new opening shape... the likes of which has never been seen before. In hand, the knife points instinctually and feels familiar. Steel liners make a stout construction. Keep your knife caged in your pocket with our patented low carry reversible clip. SOGzilla... It's a new species. Don't be caught alone!

SOG TECHNOLOGY

Folding Knives

You want cool? Okay, how about award-winning folding knives that combine experimental design with precision engineering? SOG takes risks to bring you technological advancements such as the Arc-Lock™ advanced blade lock mechanism, and a whole new speed in lightning-quick blade access with patented SOG Assisted Technology (S.A.T.™).

Pendulum	
Length:	7"
Blade:	4.1" x .100"
Steel:	VG-10 Stainless Rc. 59-60
Finish:	Satin Polish
Edge:	Straight or Partially Straight
Weight:	4.0 oz.
Comes With:	Reversible Bayonet Pocket Clip

PENDULUM™

There is a rhythm and cadence to the movement. An Action and Reaction. The Pendulum is not only interesting, it's functional. As you open the blade the bolster rotates out and then returns. To release our famous Arc-Lock system, simply slide the bolster and unlock the blade. This modern folder has a distinctive look; with 360° notched liners that provide extra grip, reversible pocket clip, modified spear point blade and textured handles. It is one of those rare products that says by mere possession, you won't settle for the ordinary.

Toothlock	
Length:	7.35"
Blade:	4.3" x .118"
Steel:	VG-10 Stainless Rc. 59-60
Finish:	Satin Polish or Black TiNi
Edge:	Straight or Partially Straight
Weight:	3.3 oz.
Handle:	Zytel
Comes With:	Pocket Clip

TOOTHLOCK™

The Toothlock is a new design expression. It combines our high performance piston lock but with the addition of a kick start device. Pull back the lock and the blade is nudged out of the handle to start its journey. Why the name the Toothlock? Check out the shape of the lock bar with its two lobe geometry. This new technology merges with an assertive handle pattern that changes direction to match the tactile points on the hand. You will find it stimulating. The blade shape is novel as well with a wavy reverse curve that cuts effortlessly while maintaining a thick reinforced tip for power penetration. The san mai blade is ground to perfection and is reminiscent of ancient samurai designs. Toothlock... better than finding money under your pillow.

AUTOCLIP™ SERIES

You asked and we listened. We have brought back our AutoClip series, a no nonsense line of lockbacks that are lightweight, durable and affordable. The name comes from our spring-activated clip design, which allows variable thickness pant edges to be treated equally with the proper clamping force. The next thing you might notice is our adjustable thumbstud (patent-pending) fine tune its position and tailor it to your hand. Appreciate the AutoClip's signature basket weave texture, which insures non-slip performance. The blades are beautifully ground with a two directional high gloss satin finish, typically only found in much more expensive knives. Several sizes and styles are available to fit your many applications. Carry more than one.

Aura Folder	
Length:	7.635"
Blade:	4.2" x .125"
Steel:	8Cr13MoV - Rc. 58-59
Finish:	Satin Polish or Black TiNi
Edge:	Straight or Partially Serrated
Weight:	3.7 oz.
Handle:	Zytel/Rubber
Comes With:	Pocket Clip

AURA FOLDER™

The Aura Folder is a reflection of the fixed blade line with many of the same elements having been incorporated. Take for instance the lock system, it is a new hybrid mechanism that uses our Arc-Actuator, provides strong blade retention and allows the blade guard to pass through. Open and unlock the blade with either hand and choose which side to mount the clip on This blade is a proven workhorse with drop point tip, flat grinds, and thumb notches for extra control. And just like its big brother fixed blade, pull out your compact sharpener for field touch up. We are creating a new Aura in folding knives.

WOODLINE FOLDER™

That feeling of leaving civilization behind as you move out of the valley and into the woodline is the inspiration for this series of fixed blades and folders. These big upswept blades meet the challenges of extreme camping, hunting and survival chores. The Blade is anchored in a handle comprised of stainless steel bolsters and beautiful hard wood. The handle configuration insures a solid grip regardless of what nature throws at you. The thumb grooves on the blade allow the application of downward pressure as well as give greater dexterity. SOG Woodline... a confidence builder when out in the country where man is the minority.

Weight:	16.3 oz.
Handle:	Zytel
Comes With:	MOLLE Nylon Sheath

TIGERSHARK™

In the presence of the revised Tigershark series, one's pulse quickens. It is instantly recognized for its signature handguard and defensive rear point, which are removable for a more streamlined look. But it is also familiar as the largest member of the SEAL series with precise grind lines, scalloped back edge, touch point checkering, and superior ergonomics. The Tigershark is capable of chopping and slicing with an economy of scale and ferocity not available to smaller knives. Still, it's impeccable balance and style create fluidity in the hand that is unexpected and thrilling.

SEAL PUP ELITE™ & SEAL PUP™

The SEAL Pup Elite is our high performance edition to the existing SEAL family of products. The SEAL Pup Elite is serious business and carries on the tradition of supplying the worlds elite military forces. Features include: Thicker steel stock (.185"), AUS8 Stainless steel, black Hardcased™ TiNi finish, longer ergonomic handle with deeper finger grooves, racy new blade shape with longer cutting edge, and blade spine rasp for notching, filing, and thumb placement. Super charged performance for the elite for all of us!

SOG TECHNOLOGY

Tactical Nylon Sheath

Try on these new military carry sheaths that are standard issue with many of our products. Input from our tactical advisors indicated that military departments are changing their uniforms and requirements for attaching hardware. We took this information and designed something new in knife carry, the Tactical Nylon sheath. Our secondary pouch on the front allows you to complete your gear with a SOG multi-tool or folder. The modular mounting system on the back is the most versatile possible; military belts, MOLLE type applications, belts, vests, etc. are all easily mounted to quickly and securely.

Pentagon Mini - M14

Pentagon - S14

Pentagon, Mini Pentagon	
Length:	9.75", 7.875"

Vulcan Fixed -VL-50	
Open:	10.43"
Blade:	5.3" x .173"
Steel:	VG-10 Stainless - Rc. 59-60
Finish:	Satin Polish
Edge:	Straight
Weight:	8.4 oz
Handle:	Zytel
Comes With:	Leather Sheath

VULCAN FIXED BLADE™

Radical blade grinds have been one of the signatures of SOG's knives, but to produce these complex blade shapes and grinds requires the finest attention to detail. Perhaps this helps to explain why the Vulcan Fixed Blade (VFB) is so special. Each side of the knife has three separate grinds that come together to make a strong powerful knife. The reverse curve in the VG-10 blade is further evidence of this masterful craftsmanship. The full tang blade is clad with glass-reinforced Zytel scales that are textured in an intricate wave pattern, few could duplicate. It's another signature that sets us apart. VFB... the premiere tactical knife for the modern militia.

Comes With;	Leather Sheath, MOLLE Nylon Sheath

NW RANGER™ & TSUNAMI™

With the reintroduction of these two popular SOG products we have taken what made these knives so great and improved it. Some of the changes we made are subtle, like refining the overall balance. Some are more obvious like the grooves in our crossguards and a tough TiNi coating option. You will like the different shapes of both of these blades... especially when mated to the extremely tactile diamond checkered Kraton handles. Explore this next generation of two great classics.

Finish:	Bead Blasted
Edge:	Straight
Weight:	7.5 oz., 9 oz, 6.9 oz
Handle:	G10
Comes With:	Kydex Sheath

SWEDGE™

We share something with Brent Beshara, the belief that excellence in design is fundamental. Born out of our collaboration is this unique set of tactical blade shapes. As a Canadian special ops military instructor for 24 years, a life long martial artist and a custom knife maker, Brent Beshara has created a new blade geometry that makes the tips of the knives much stronger and less prone to breaking. The Swedge's functional shapes are fast and powerful with grind lines never used before. All feature a full tang, G10 handles for non-slip grip and a heavy duty Kydex sheath that offers a variety of mounting options.

Aura Hunting - AU-02

Aura SEAL - AU-03

Aura Camping - AU-01

AU-01, AU-02, AU-03	
Open:	10.95", 10", 11.9"

Edge:	Straight or Partially Serrated
Weight:	8.6 oz, 5.4 oz, 6.7 oz
Handle:	Zytel/Rubber
Comes With:	Nylon Sheath and Sharpener

AURA™ FIXED LINE

With our Aura line, we built on the traditional ideas of the past and evolved them for the future. We thought about weight, ease of carry, safety and intuitiveness. We studied the original bowie knife created by Rezin Bowie in 1938. We considered utility, ergonomics and comfort. The result... the Aura fixed blade. We used a high impact and tough glass-reinforced polymer handle that is overmolded with a more pliable material for non-slip comfort. We didn't want a big clunky crossguard that isolated the hand so we adapted the blade design to provide the element of safety and allows greater control. And just in case your extremely sharp and durable edge requires a touch up in the field. Unscrew the carbide sharpener in the back of the handle and reflect that yes, maybe this is a new day in knives. Check out the Aura in multiple fixed and folding blade configurations. Pedigree for the future.

SOG Bowie - SIT	
Length:	11"
Blade:	6.4" x .230"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi
Edge:	Straight
Weight:	12 oz.
Handle:	Epoxied Leather Washers
Comes With:	Leather Sheath with Sharpening Stone

SOG BOWIE™ 2.0

Our modern replica of the original Studies and Observation Group knife secretly developed and used in the Vietnam War by the 5th Special Forces and other elite soldiers. These individuals were specialists in reconnaissance, infiltration, and behind the lines operations. The SOG Bowie 2.0 has become a classic that is unparalleled in quality. The sculpted crossguard, deep hollow grinds and precision detailing, such as the all TiNi coating, and faceted tip are unmistakable signatures.

SOG custom cylinder nut on the Bowie 2.0, Super SOG Bowie, Agency, Tech Bowie and Trident 2.0.

Agency	
Length:	12.675"
Blade:	7.5" x .150"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi or Satin Polish
Edge:	Straight
Weight:	9.6 oz.
Handle:	Epoxied Leather Washers
Comes With:	Leather Sheath with Sharpening Stone

AGENCY™

The Agency follows a SOG tradition of recreating and modernizing historic classics. This unique knife was shrouded in secrecy and originally created for special CIA operatives in the early days of the Vietnam War. It was designed for clandestine and counter insurgency teams who lived in the jungle for months at a time and saw vicious close quarter combat. Never before reproduced, the beautiful flowing lines of blade and handle have been retained. We vastly improved the construction and quality with modern materials like TiNi coatings and epoxy filled leather washers that were unknown at that time. An exquisite design of the highest caliber, the SOG Agency captures the mystique of a positively unique fixed blade.

MODELS	
AG-01	Satin Polish
AG-02	Black TiNi (shown)

Super SOG Bowie - SBIT	
Length:	12.875"
Blade:	7.5" x .250"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi
Edge:	Straight
Weight:	17.4 oz.
Handle:	Epoxied Leather Washers
Comes With:	Leather Sheath with Sharpening Stone

SUPER SOG BOWIE™

How appropriate that for our 20th anniversary we launched a new adaptation of the original SOG Bowie that founded the company. This large format 7-1/2" blade will stun you with its exacting construction and precise grind lines. Unlike the originals, all parts are protected with our Black TiNi Hardcased coating that is the very best for appearance and performance. The stacked leather washer handle is completely traditional. SOG today is 20 years smarter and our products show it.

Trident 2.0 - S2B	
Length:	11"
Blade:	6.4" x .240"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Satin Polish
Edge:	Straight
Weight:	11.2 oz.
Handle:	Micarta Washers
Comes With:	Leather Sheath with Sharpening Stone

TRIDENT™ 2.0

For those who are looking for the style of the SOG Bowie 2.0 in a stainless steel design, look no further than the Trident 2.0. Our Trident embodies the spirit of our most capable special forces unit, the Navy SEALs.

Kiku Bowie - KU-01

Kiku Dagger - KU-03

Kiku Tanto - KU-02

SOG TECH Bowie	
Length:	11"
Blade:	6.4" x .240"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Black TiNi or Satin Polish
Edge:	Straight
Weight:	11.2 oz.
Handle:	Kraton Rubber
Comes With:	Kydex Sheath

TECH BOWIE™

Based on the classic SOG Bowie that founded our company, but morphed into a top-notch work knife with the use of technology, modern materials, and a little class thrown in for good measure.

For starters all the metal parts are satin finished stainless steel and available with SOG's proprietary Hardcased™ TiNi matte black coating. It looks incredible! Offset against this, the tactile Kraton rubber handle nods to tradition with the use of interspaced white washers. This has never been accomplished before and provides an unmistakable SOG look. The thick (.240") AUS-8 blade is topped off with a faceted tip that is a SOG signature and completes the total package.

Creed	
Length:	12.125"
Blade:	7.5" x .240"
Steel:	AUS-8 Stainless - Rc. 57-58
Finish:	Satin Polish or Black TiNi
Edge:	Straight
Weight:	12.8 oz.
Handle:	Kraton Rubber
Comes With:	Leather Sheath

CREED™

One of the more dramatic blade shapes in the SOG arsenal, Creed delivers on its promises of high-level performance. The very stout front end weights the knife forward for chopping and piercing. The big belly on the blade maximizes the cutting edge for extreme wilderness and hunting situations. Mated with the Tech Bowie handle to provide a confident grip in inclement weather. This is a great example of a collectable and working knife coming together.

Handle:	Green Canvas Micarta Black Canvas Micarta
Comes With:	Leather Sheath and Presentation Box

KIKU

When SOG inspiration meets master craftsmanship, true works of art are born. Introducing the SOG Kikus, collaborations with custom knife maker Kikuo Matsuda. Kiku is considered to be the finest hand grinder in the world. Over his lifetime he has developed techniques that are simply unparalleled. He is able to combine flat, hollow, and convex (Hamaguri) grinds that all interact seamlessly. He does it by altering his finger pressure and listening to the sound of the grinder without actually seeing the blade. His works are in the some of the finest collections in the world. This collection features mirror polished blades with double bevel grinds, green canvas micarta handles, and OU-31 steel. OU-31 is a micro fine steel that features high hardness Rc64 and is 3 times tougher than D2. Only a few serialized pieces will be created as the master Kiku must grind each himself. All will come with a custom leather sheath, presentation box, and certificate of authenticity.

- KU-01 - Bowie knife with dual bevels and signature acid etched texture
- KU-02 - Tanto with dual bevels and signature acid etched texture
- KU-03 - Dagger with 4 double grinds, convex edges (Hamaguri) and blackened traditional samurai guard (Katana Tsuba)

Reverse Collaboration is where a manufacturer works closely with a custom maker to produce a limited number of knives in the style of the manufacturer. This will provide a set of guaranteed orders for the custom maker while also elevating his stature in the cutlery world. The manufacturer also gains stature by working with the custom maker and can sell knives to markets and buyers that would not normally buy that makers products.

Field Pup - FP3	
Length:	8.5"
Blade:	4" x .130"
Steel:	AUS-6 Stainless - Rc. 57-58
Finish:	Satin Polish
Edge:	Straight
Weight:	4.0 oz.
Handle:	Kraton Rubber
Comes With:	MOLLE Nylon Sheath

FIELD PUP™

“It’s just about the perfect size, weight, feel and balance,” is the comment we hear from wilderness guides who handle the Field Pup for the first time. It’s comfortable to use with its Kraton molded handle that form fits the full tang blade. SOG’s trademarked finger grips are combined with aggressive thumb notches on the back of the blade, making the Field Pup a real working knife. The blade is also protected by SOG’s nylon sheath.

Woodline Fixed - WD-01, WD-02	
Length:	10.4", 8.7"
Blade:	4.8" x .150" 4" x .150"
Steel:	8Cr13MoV Stainless - Rc. 57-58
Finish:	Satin Polish
Edge:	Straight
Weight:	8.3 oz, 5.9 oz
Handle:	Wood
Comes With:	Leather Sheath

WOODLINE™

That feeling of leaving civilization behind as you move out of the valley and into the woodline is the inspiration for this series of fixed blades and folders. These big upswept blades meet the challenges of extreme camping, hunting and survival chores. The Blade is anchored in a handle comprised of stainless steel bolsters and beautiful hard wood. The handle configuration insures a solid grip regardless of what nature throws at you. The thumb grooves on the blade allow the application of downward pressure as well as give greater dexterity. SOG Woodline... a confidence builder when out in the country where man is the minority.

See Woodline Folding blade on page 27.

Fixation Dagger - FX-10

Fixation Bowie - FX-01

Fixation Bowie, Dagger	
Length:	12.25", 11.875"
Blade:	7", 6.675"
Steel:	8Cr13MoV Stainless
Edge:	Straight, Straight or Serrated
Weight:	10.5 oz., 8.3 oz.
Handle:	Kraton
Finish:	Black Oxide
Comes With:	Nylon Sheath

FIXATION™

Among other things, SOG has a reputation for producing some of the finest production fixed blades in the world. Now we have developed along with military consultants an even more economical choice with the Fixation series. Seamless fits between blade and cross guard, wrap-around checkered handles, blade grooves, thumb notches, spanner nuts, and crossguard cutouts all say this knife is as distinctive as you are. Great balance and proportion make these knives very agile. Let our Fixation become yours!

Jungle Primitive - F03T	
Length:	15.3"
Blade:	9.5"
Steel:	420 Stainless
Finish:	Black Oxide
Edge:	Partially Serrated
Weight:	14.0 oz.
Handle:	Kraton
Comes With:	Nylon Sheath

JUNGLE PRIMITIVE™

For the primitive in all of us. When the only thing that separates you from them is your equipment, it better be good. Using SOG's Hardcased black coating, the Jungle Primitive is durable and comfortable with a molded Kraton handle that features Digi-Grip™, a way to guarantee gripping power where you need it. One can instantly turn the Primitive into a small machete, limb saw, or hammer. Includes a Nylon sheath with utility pouch. Don't be caught alone!

Revolver Hunter - FX-20

Revolver SEAL - FX-21

SOGfari 13" - MC-01

SOGfari 18" - MC-02

SOGfari Machete - MC-01, MC-02	
Length:	18.95", 23.95"
Blade:	12.9" x .080", 18" x .080"
Steel:	High Carbon Steel - Rc. 46
Finish:	Black Powder Coated
Edge:	Straight/Saw Back
Weight:	13 oz, 15.7 oz
Handle:	Kraton
Comes With:	Nylon Sheath

SOGFARI MACHETE™

Our machetes are exciting additions to the SOG family. Its not should I have a machete but which size will work for me. Machetes are one of the more useful edged tools in the world. They have cleared brush, and blazed trails, have chopped wood, made shelters, harvested crops, prepared meals, hunted and protected. Careful attention has been given to the SOGfari to make sure that the weight was right and the handles were comfortable for extended use. Whip them through the air and hear them sing. We've added a real working saw on the back of the blades with teeth that cut deep. Extended out of the back of the handle is a spiked tang for pounding and scraping. There are even holes in the handle to mount lanyards. SOGfari... the go to tool for survival, exploration and adventure!

Revolver Hunter, SEAL	
Length:	10"
Blade:	4.75" x .150"
Steel:	440A Stainless - Rc. 56-58
Edge:	Straight/ Double Tooth Saw
Weight:	6 oz.
Handle:	Glass-Reinforced Nylon
Finish:	Satin, Black TiNi
Comes With:	Nylon Sheath, Leather Sheath

REVOLVER™

It isn't very often that a product can create a new category, but the Revolver does just that. We have pioneered a fixed blade with a new twist... actually a complete revolution. The Revolver's secret is simply twice the capability for the same size and weight. Utilizing patented technology developed by Robbie Roberson and Spencer Frazer, you can depress the locking lever and rotate the blade to transform the knife into a saw. It's so easy, so cool, that you'll wonder why it wasn't done a long time ago.

The Revolver comes standard with a new look in blade shape that is not only functional, but distinctive. A survival saw serves as a backup in the handle. The blade features a forward thumb rest for increased dexterity and downward pressure. A glass-reinforced Zytel handle hides the stainless steel liners which ensure strength and quality.

Why not pack twice the capability with the Revolver? It just might transform your idea of what a knife should be.

Tactical Tomahawk - F01T	
Length:	15.75"
Head Length:	8.25"
Edge Length:	2.75"
Steel:	420 Stainless
Finish:	Black Oxide
Edge:	Straight
Weight:	24 oz.
Handle:	Ballistic Polymer
Comes With:	Nylon Sheath

TACTICAL TOMAHAWK

Based on the Vietnam Tomahawk the Tactical Tomahawk is an extreme evolution of the original which was considered one of the more unusual weapons of its day. Today there is a real need for a versatile tool for breaching operations, excavation, obstacle removal, extraction, and other utility applications. The 420 stainless steel head with Hardcased coating is mounted to the ballistic polymer handle with heavy duty bolts and a steel ferrule to keep the handle from splitting. Side hammer checkering insures precise placement when pounding. Carried in a nylon sheath this is a universal tool for modern man.

Hand Axe - F09-N	
Length:	11.1"
Blade:	2.4" x .186"
Steel:	420 Stainless - Rc. 51-53
Finish:	Black Oxide
Edge:	Straight
Weight:	18.6 oz
Handle:	G10
Comes With:	Nylon Sheath

HAND AXE

A simple and genuine utilitarian design, the SOG Hand Axe (SHAX)... will perform as a wilderness back pack essential as well as a camp, truck and preparedness tool. We opted to include G10 scales on the handles... for a more aggressive grip. With enough weight to make short order of camp chores, SHAX also will not punish you when carrying on extended adventure trip.

Battle Axe - F02T	
Overall Length:	12.25"
Head Length:	7"
Edge Length:	3.75"
Steel:	420 Stainless
Finish:	Black Oxide
Edge:	Straight
Weight:	20.2 oz.
Handle:	G10
Comes With:	Nylon Sheath

BATTLE AXE

Our modern battle/throwing axe evokes its origins from medieval times, which some might consider to be the present. Whether used as a target axe, SWAT tool, universal back up, or hung above the fireplace; it is very effective. The pike in the back is upswept for better target penetration. Size and heft are balanced for optimum swing control. The handle is sculpted from heavy duty black G10 and the entire solid blade is protected with SOG's Hardcased black coating. Nylon sheath included.

Throwing/Utility Knives - F04T	
Length:	10"
Blade:	4.375"x.135"
Steel:	420 Stainless
Finish:	Black Oxide
Edge:	Straight
Weight:	5.3 oz. each
Handle:	N/A
Comes With:	Nylon Sheath

THROWING/UTILITY KNIVES

These stylized knives are not only fun to sail through the air, they are practical as well. Completely protected by SOG’s Hardcased black coating, they are extremely scratch resistant. Their balance, aerodynamics, and proportions make them great throwing knives. For the same reasons they also make great back-up field knives. Wrap the handles with paracord or use as is and you have three knives for the price of one! Includes nylon sheath that safely carries all three.

Folding Saw - F10-N	
Length:	14.75"
Blade:	8.25"
Steel:	High Carbon Steel
Finish:	Satin Polish
Edge:	Saw
Weight:	5.9 oz
Handle:	Soft Grip TPR
Comes With:	Nylon Sheath

FOLDING SAW

A saw is an essential piece of survival equipment. The longer the saw, the easier to use, but the harder to carry. We achieved a nice balance between the two. The Folding Saw has a 7.5” blade of hardened and tempered steel that makes short order of branches, small logs, and brush. A comfortable handle helps to cut deep and true on each and every pull stroke. The extremely sharp teeth are differentially tempered for long life and work on green as well as hard wood.

Spirit - FS-01	
Length:	10.65"
Blade:	4.25"
Steel:	420 Stainless
Finish:	Black Oxide
Edge:	Double Edge Straight
Weight:	10.0 oz.
Handle:	Nylon
Comes With:	Nylon Sheath

SPIRIT™

The Spirit looks like a futuristic tribal spear taking off from “Area 51”. Sleek and aerodynamic, it hides a secret... Unscrew the handle and use a broom handle* to complete the spear! In a survival situation, use a branch to make the spear shaft and tighten it with a nail or the provided setscrew. With the provided handle the Spirit can be thrown or used as a cutting tool. Do you have the Spirit?

** The Spirit will fit on most common broom handles.*

Entrenching Tool - F08-N	
Length:	18.25"
Blade:	7.25" Closed
Steel:	High Carbon Steel
Finish:	Black Powder Coated
Edge:	Straight
Weight:	24.5 oz
Handle:	Steel
Comes With:	Nylon Sheath

ENTRENCHING TOOL

A folding shovel can be an indispensable tool in today’s constantly changing environment. We know one thing, when you need to move sand, dirt or snow you wish you had that shovel close at hand. Our all steel construction entrenching tool uses a tempered steel blade with teeth cut into it for cutting and slashing. The triangular handle is strong and fits the hand well. Folded, it takes up about the same space as a stack of paper plates. Which would you rather have?
