

Cuchillos de Caza y Remate

Metal frío, afilado, punzante, de brillo acicalado y formas a la vez atractivas y rotundas; así son las hojas de la mayoría de los cuchillos Muela. Pero cuando el arma se combina con platas repujadas, con figuras trabajadas por manos de orfebre, con maderas preciosas o astas seleccionadas, grabados, esmaltes y con diseños únicos de extraordinaria belleza, el concepto de "joya" está tan perfecta como palpablemente justificado.

Hace ya más de un cuarto de siglo que Muela produjo su primer "cuchillo-joya" en edición limitada y numerada, y desde entonces han sido decenas los modelos exclusivos que han sido protagonistas de esas series especiales. En cada uno de ellos se plasma la máxima perfección, conjugando artesanía, diseño y materiales preciosos, pero sin renunciar en absoluto a su esencia de arma auténtica, robusta y funcional.

Son cuchillos muy especiales, algunos incluso con hojas de "acero Damasco" forjadas a mano, acompañados con fundas asimismo exclusivas, con atractivos y valiosos estuches de presentación, y de los correspondientes certificados que confirman lo específico y único de su elaboración.

Hunting and "Remate" Knives

The blades of most Muela knives are cold, sharpened, pointed, with a polished shine and attractive and rounded shapes. However, when the weapon is combined with embossed silver, with figures worked by silversmiths, with precious woods or selected horns, engraved, enamelled and with unique designs of extraordinary beauty, the concept of "jewellery" is perfectly and palpably justified.

Over a quarter of a century ago, Muela produced its first "jewellery-knife" in a limited, numbered edition and, since then, has produced dozens of exclusive models to take pride of place in these special series. Each one reflects the utmost perfection, combining craftsmanship with design and precious materials, yet without relinquishing its essence as a real weapon that is both strong and functional.

These are very special knives, some even with hand-cast Damascus steel blades and accompanied by also exclusive cases, with attractive, valuable presentation boxes and the corresponding certificates to confirm their specific and unique production.
